

COMPANY PROFILE

ISTEEL ENGINEERING
TRADING & CONTRACTING WLL

INTRODUCTION

Welcome

Welcome to the official company profile of iSteel Engineering Trading & Contracting WLL. As a market leader in steel engineering and civil construction in Qatar and beyond, we take immense pride in the quality, safety, and innovation that define our operations. Since our inception, we have successfully delivered critical projects across sectors with precision, integrity, and professionalism.

We are committed to transforming your vision into reality through advanced engineering, an experienced workforce, and global best practices. We thank you for your interest and look forward to creating success together.

Mr. K. Murugaperumal

Managing Director

Company Overview

iSteel Engineering Trading & Contracting WLL is a Qatar-based “Integrated Management System company” that provides end-to-end solutions in structural steel engineering, civil construction, and MEP services.

Founded on principles of quality, safety, and integrity, we cater to public and private sector clients across Qatar and India.

Our multidisciplinary capabilities include steel design, fabrication, blasting, painting, fireproofing, erection, and project management. We also undertake complete civil and MEP projects on a turnkey basis, offering clients a single point of contact for comprehensive construction solutions.

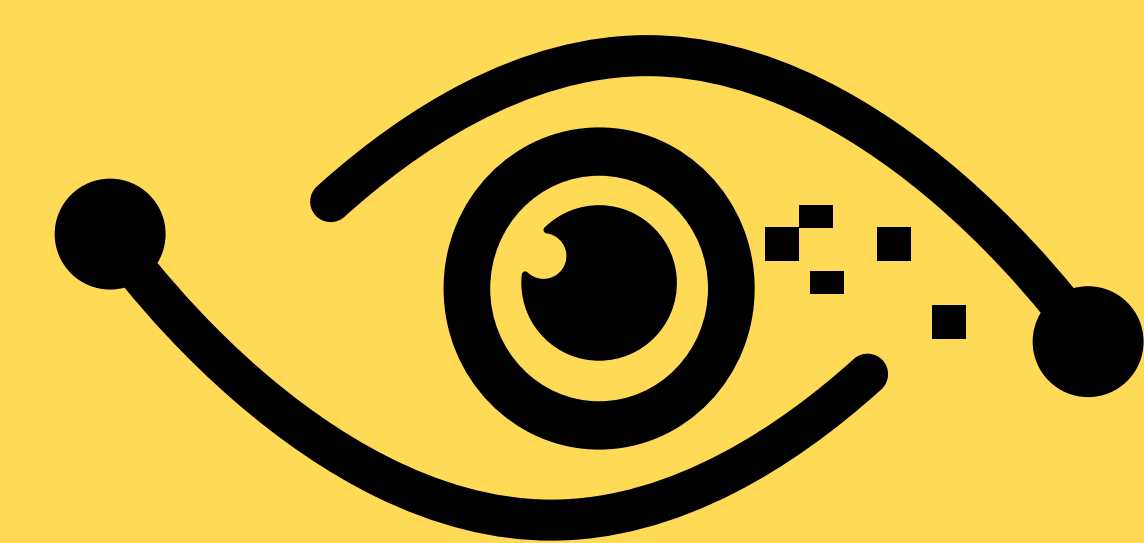

OUR Mission

To empower industries and infrastructure through safe, innovative, and cost-effective Steel, Aluminium, Glass, and Civil Engineering solutions that build long-term value for our clients and communities.

OUR Vision

To be recognized globally as a trusted leader in Steel Engineering and Turnkey civil construction by continually raising the bar in quality, safety, and client satisfaction.

Core Values

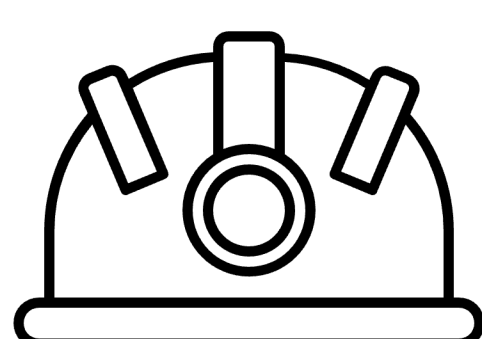

Integrity: We act with honesty and fairness.

Excellence: We strive for perfection in every project.

Innovation: We embrace change and pursue progress.

Safety: We prioritize health, safety, and environment.

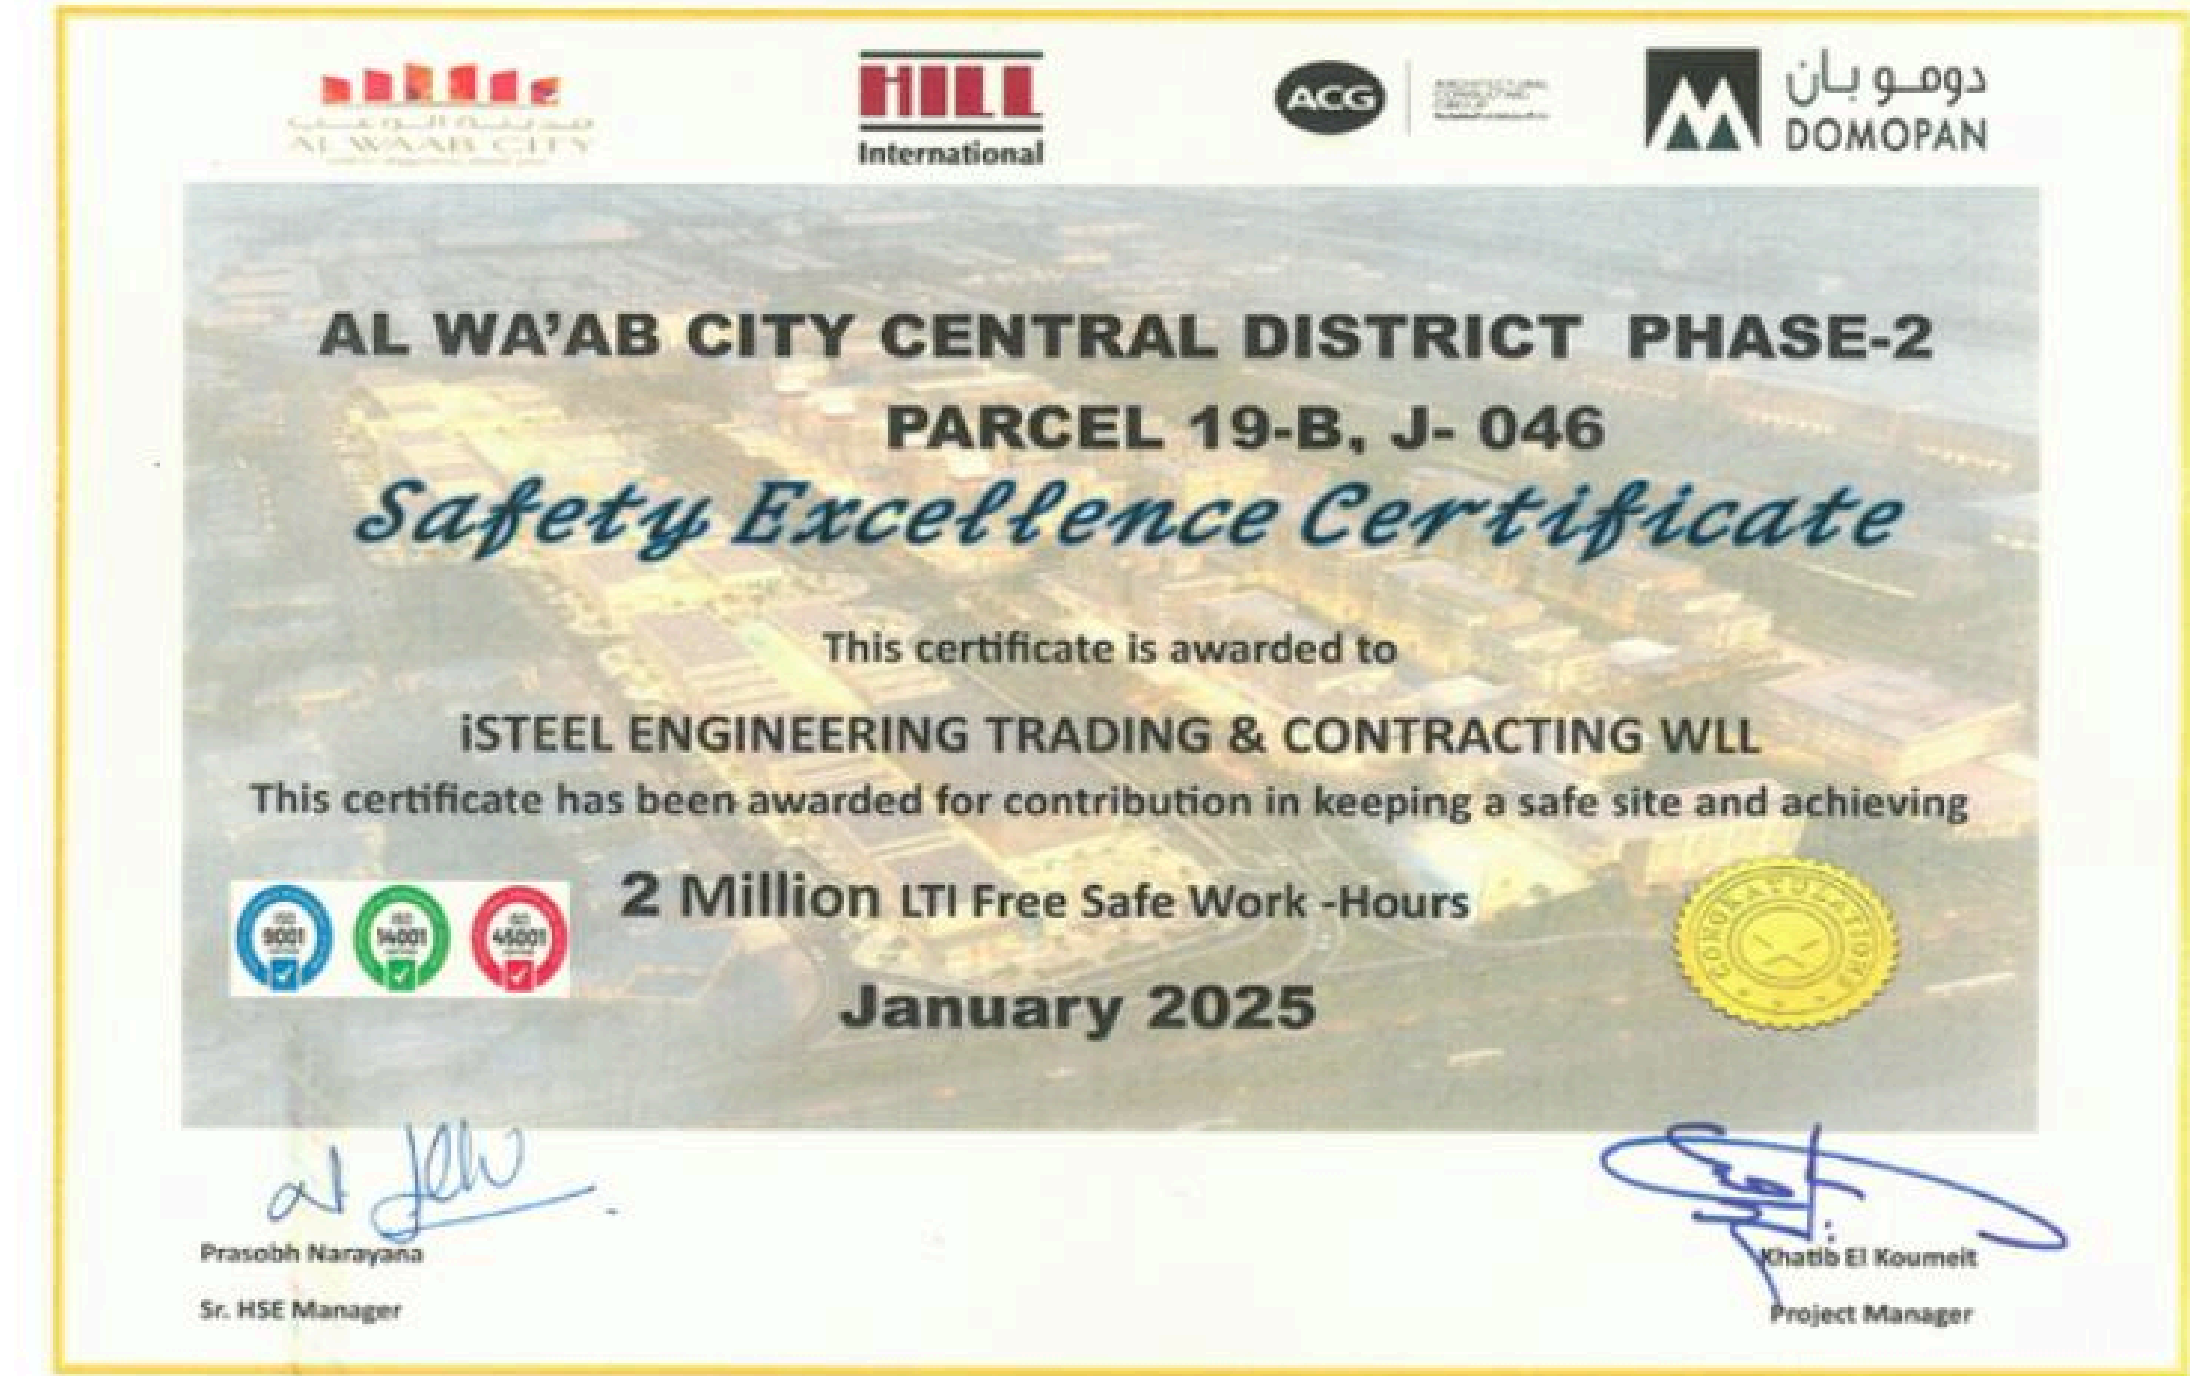

Customer Focus: We tailor every solution to our client's goals.

Our Services

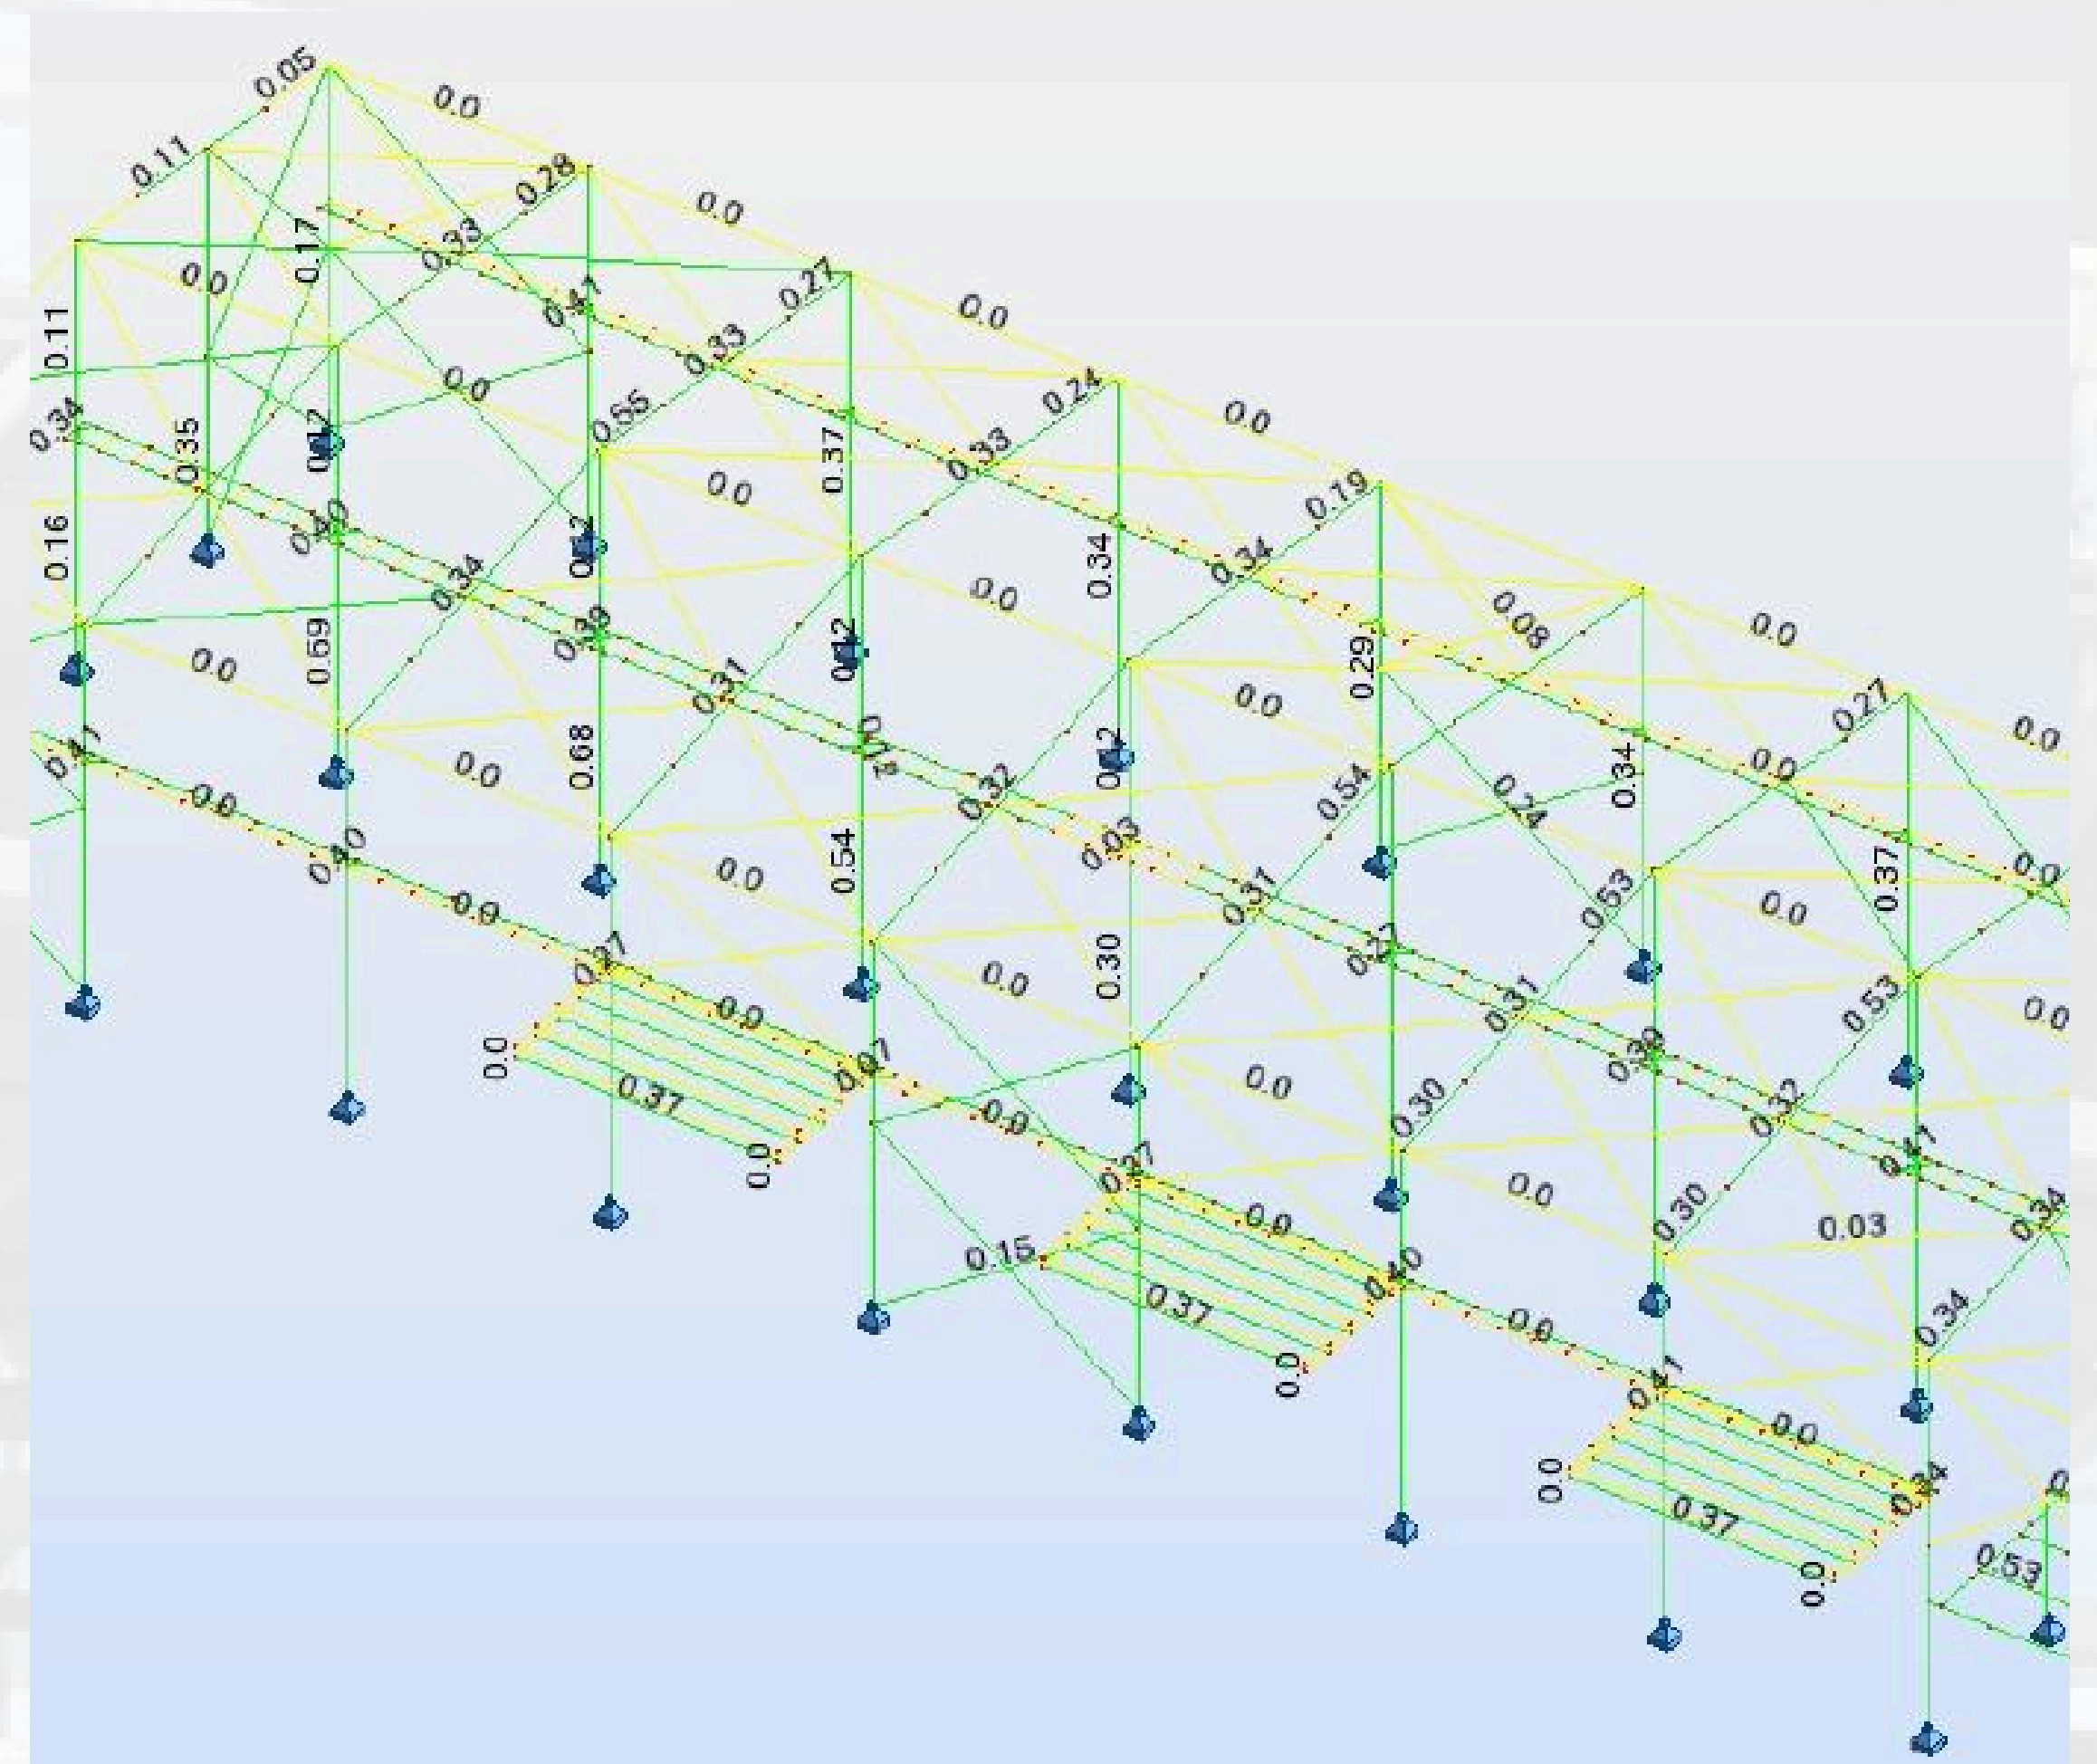

Structural Steel Design & Detailing

We provide professional structural steel design services for buildings, bridges, towers, and other steel structures, utilizing advanced software to ensure efficiency and cost-effectiveness. Our expertise includes precise fabrication drawings and comprehensive erection plans tailored to each project.

Structural Analysis

We offer a full suite of structural analysis services, including finite element analysis, structural optimization, and seismic evaluation. Using advanced tools and methodologies, our experts ensure the safety, stability, and efficiency of every steel structure.

Construction Support

We provide on-site construction support to ensure that your steel structures are built according to the design and specifications. Our team works closely with contractors & other stakeholders to ensure that the construction process runs smoothly.

Our services include:

One-stop solution for all your steel supply, fabrication, and installation needs. We are a team of highly experienced and skilled professionals who are dedicated to providing our clients with quality services that exceed their expectations.

Steel Supply

We offer a wide range of steel products, including structural steel, pipes, plates, and fittings. We work closely with our clients to understand their requirements and provide them with the best quality products that meet their specifications.

Steel Fabrication

Our advanced fabrication facility is equipped with cutting-edge tools to handle a wide range of steel fabrication projects. Our skilled team delivers precision fabrication in any shape or size, meeting the highest industry standards.

Steel Installation

Our team of experienced installation specialists is committed to delivering high-quality steel installation services, managing every phase from planning to execution with strict adherence to safety and quality standards. We prioritize client satisfaction by providing tailored solutions and maintaining close collaboration throughout the project.

Blasting, Painting, Fire rating and Installation

We offer a full range of industrial blasting and painting services, including coatings for steel structures, channels, and equipment. iSteel Group is also an authorized provider for the supply and installation of fire-rated steel systems in Doha, Qatar.

Fabrication of EOT Cranes and Erection

We specialize in providing expert EOT crane services, recognized for their reliability, prompt execution, and timely delivery. Our solutions are tailored to client needs and offered at competitive rates.

MEP/HVAC Renovation/ Replacement Works

Whether you require a full HVAC system replacement or a minor upgrade, our team delivers reliable, high-quality solutions using trusted products to ensure long-term performance and energy efficiency. Our HVAC services include:

- Air conditioning installation and replacement
- Heating system installation and replacement
- Ductwork repair and replacement
- Thermostat installation and indoor air quality solutions

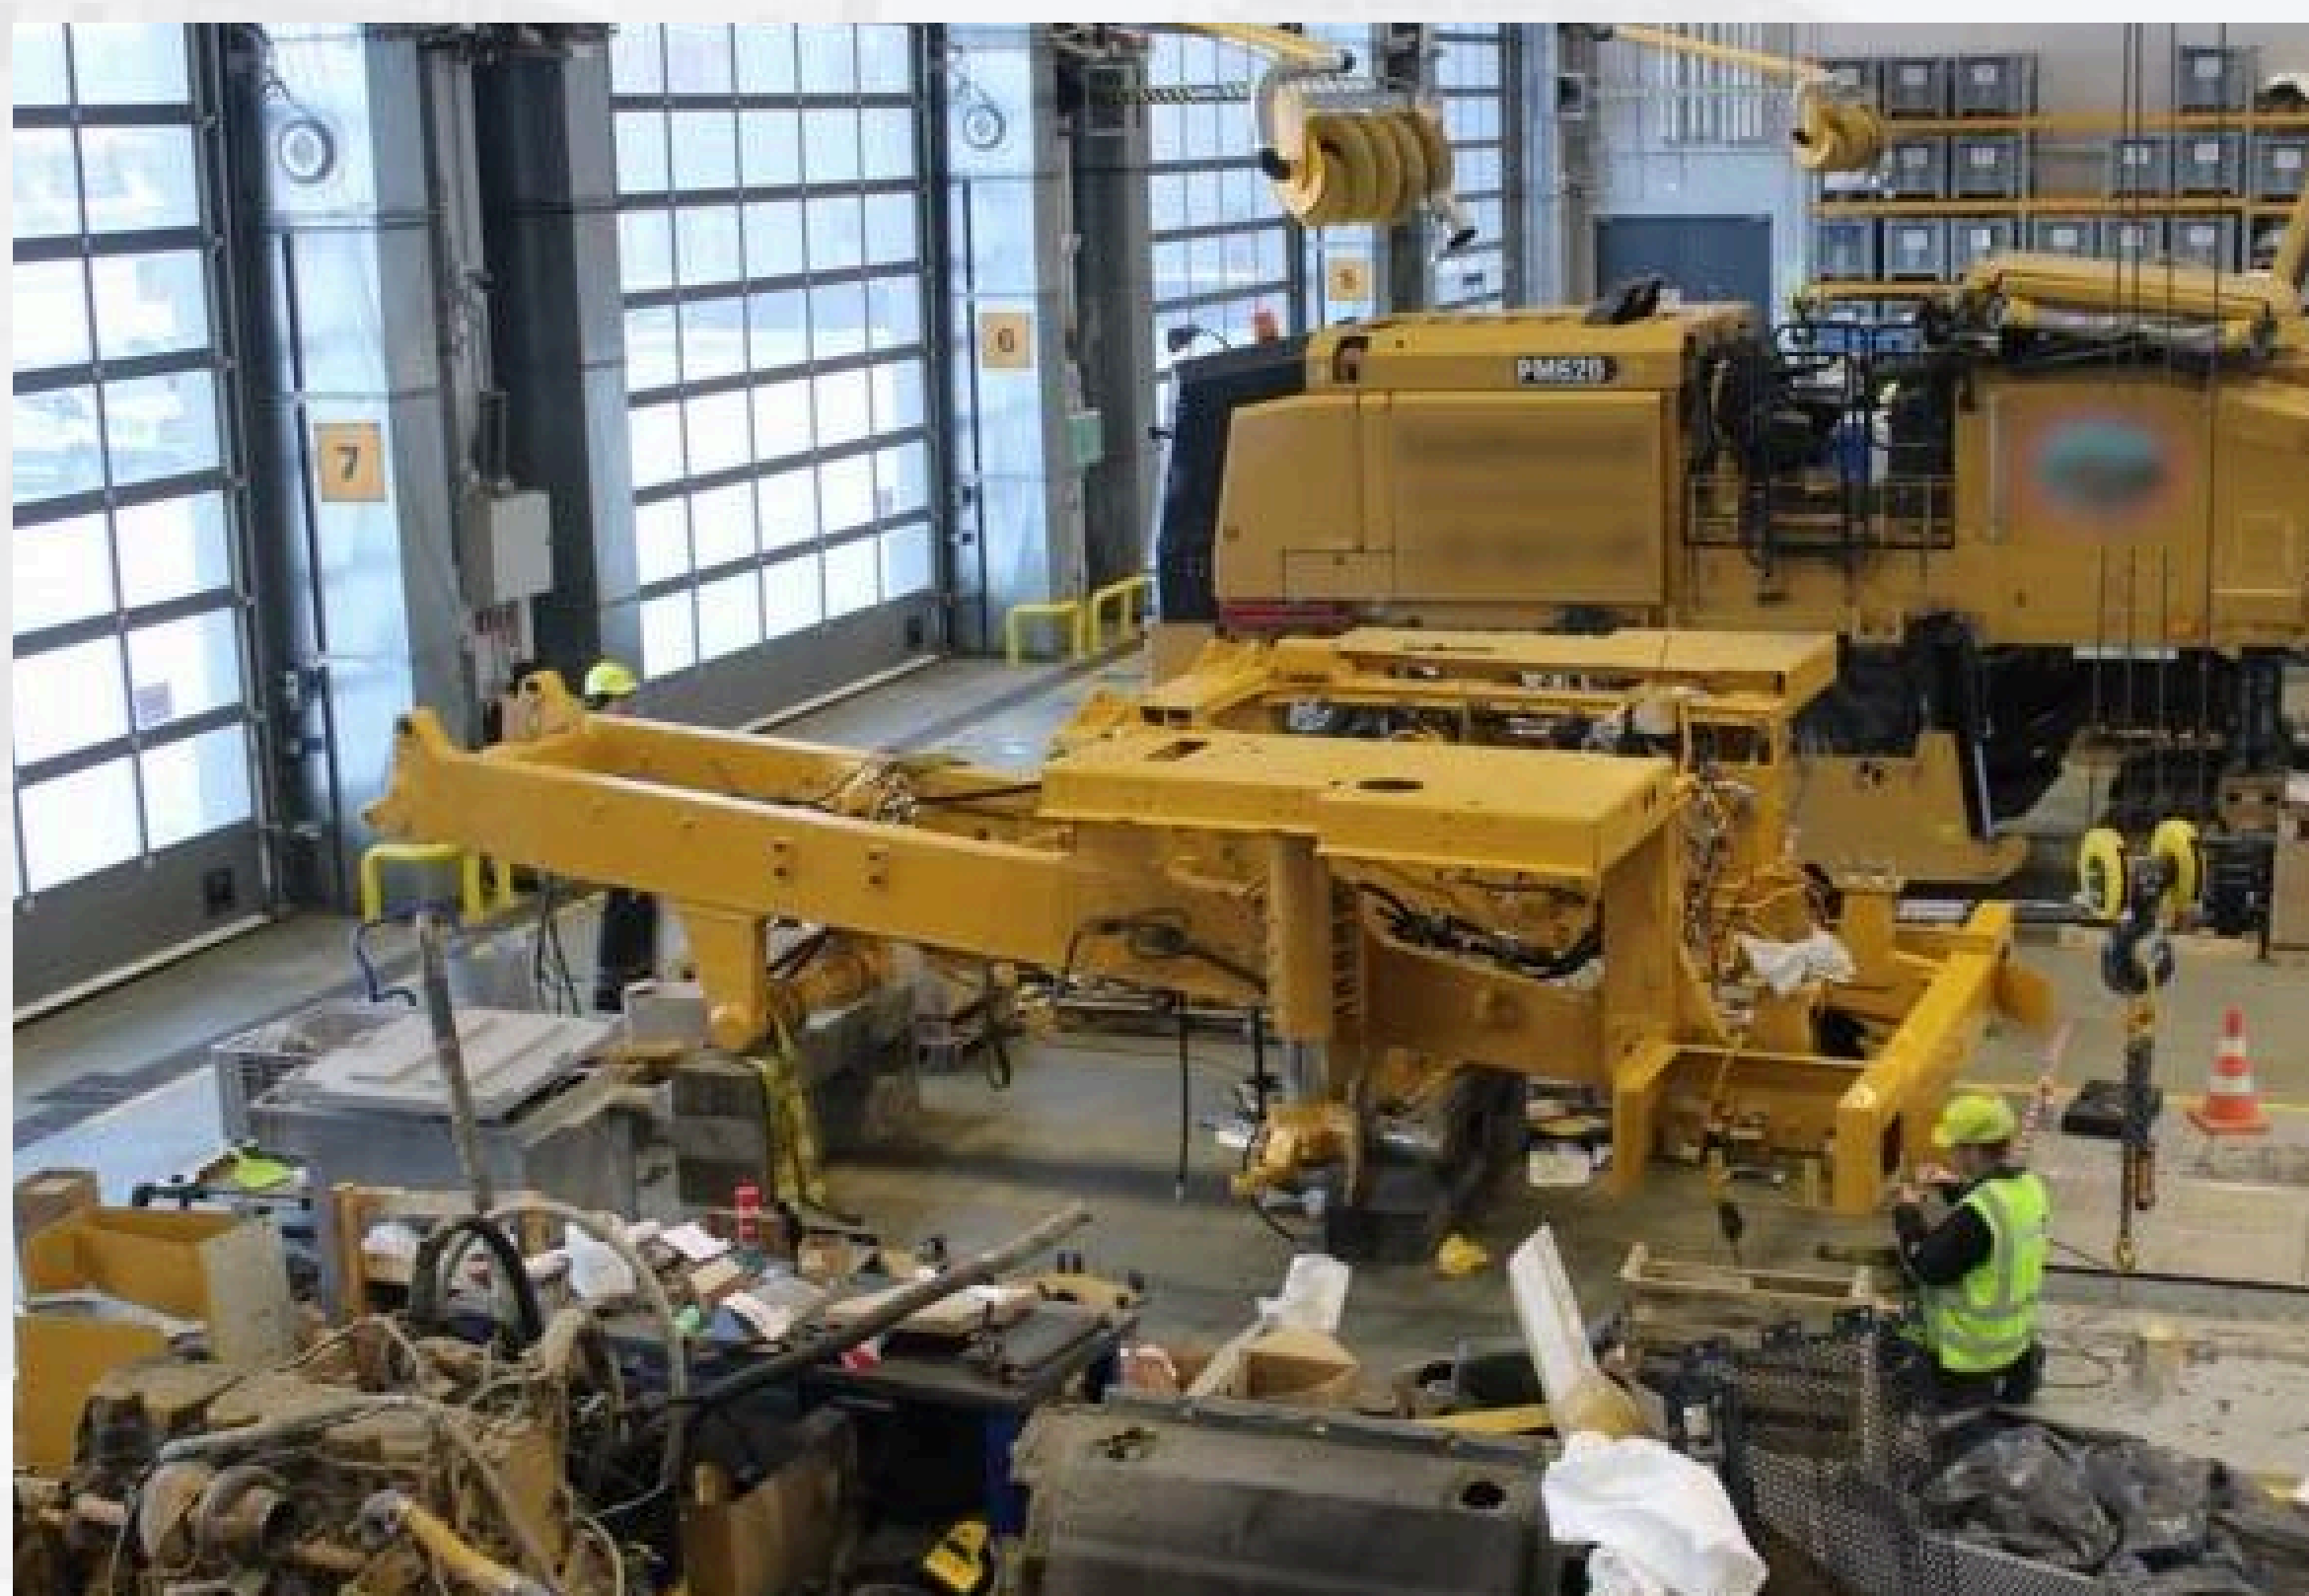

Turnkey Civil & MEP Works

We deliver end-to-end civil and MEP solutions, including foundation, formwork, reinforcement, concreting, and utility installations. Our scope covers all stages—from substructure to superstructure.

Oil and Gas Project

We support oil and gas projects of all sizes—from small installations to large-scale developments—across upstream, midstream, and downstream sectors. Our services include the design, implementation, commissioning, and operation of storage, transmission, and distribution pipeline systems and related infrastructure.

Maintenance of Industrial Equipment

We offer comprehensive equipment maintenance services, including preventive, corrective, and predictive maintenance to ensure optimal performance and reduce downtime. Our team also specializes in shutdown maintenance, delivering timely and efficient service with minimal disruption to operations.

Aluminium & Glass Works

We offer high-quality aluminium and glass fabrication and installation services for commercial, residential, and industrial projects. Our capabilities include curtain wall systems, structural glazing, aluminium doors and windows, skylights, and partition systems. We ensure precision and durability with modern techniques and premium-grade materials.

Areas of Specialization

We design and build durable, efficient industrial facilities tailored for manufacturing, processing, and production, ensuring compliance and future scalability.

Commercial & Industrial Buildings

We deliver well-engineered commercial spaces that combine structural integrity with smart design, maximizing functionality and visual appeal.

Warehousing & Logistics Facilities

We create optimized warehouse and logistics solutions with clear spans, efficient layouts, and fast access to support seamless operations.

Energy & Utility Infrastructure

We provide robust structural solutions for oil and gas facilities, built to withstand demanding conditions and meet strict safety standards.

High-Rise Structures

We develop custom steel structures for complex, high-load, or unconventional projects, balancing innovation with structural precision.

Dome & Skylight Steel Works

We craft steel domes and skylights that offer both structural integrity and aesthetic value, enhancing natural light and architectural design.

Quality & HSE

We follow a robust Quality Management System aligned with ISO standards. Our HSE program ensures daily compliance with global safety practices, including routine inspections and emergency response planning.

Incident Reporting:-

1. Be Calm, Do Not Panic, Introduce yourself (Your Name, Position, the location, & condition Etc.)
2. Talk Clearly, Answer all questions. Describe the incident briefly (explain the type of emergency)
3. If you reporting using Telephone /Mobile, "Do Not Hang Up" Until told to do so.
4. Follow all instructions of the Department of Safety and Security or other identified emergency personnel

घटना के रिपोर्टिंग

1. शांत रहें, घबराएं नहीं, अपना परिचय दें (आपका नाम, स्थिति, स्थान, और स्थिति आदि)
2. स्पष्टता से बात करें, सभी प्रश्नों के उत्तर दें। घटना का संक्षेप में वर्णन करें (आपातकाल के प्रकार को समझाड़िये)
3. यदि आप टेलीफोन/मोबाइल का उपयोग करके रिपोर्टिंग कर रहे हैं, तो "जब तक सब कुछ साफ न हो जाए, तब तक फोन बंद न करें।"
4. सुरक्षा एवं संरक्षा विभाग के सभी निर्देशों का पालन करें अथवा अन्य आपातकालीन कर्मों

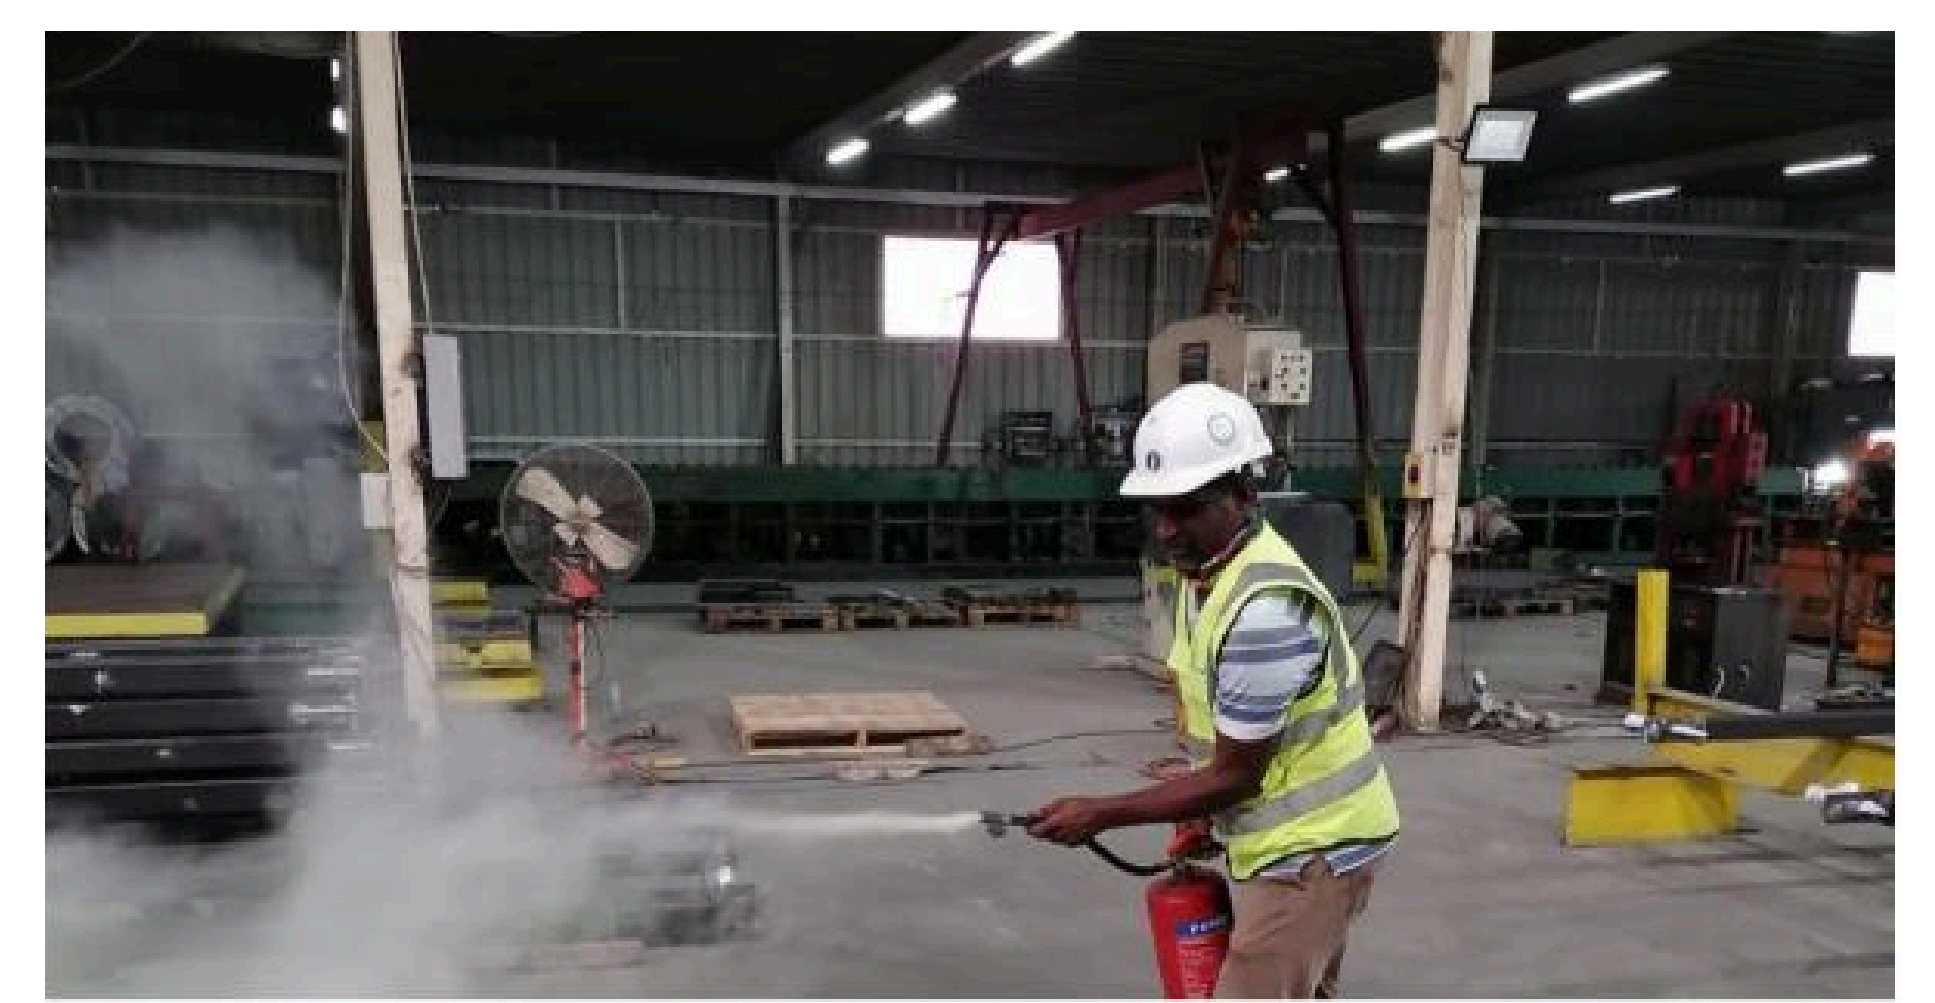

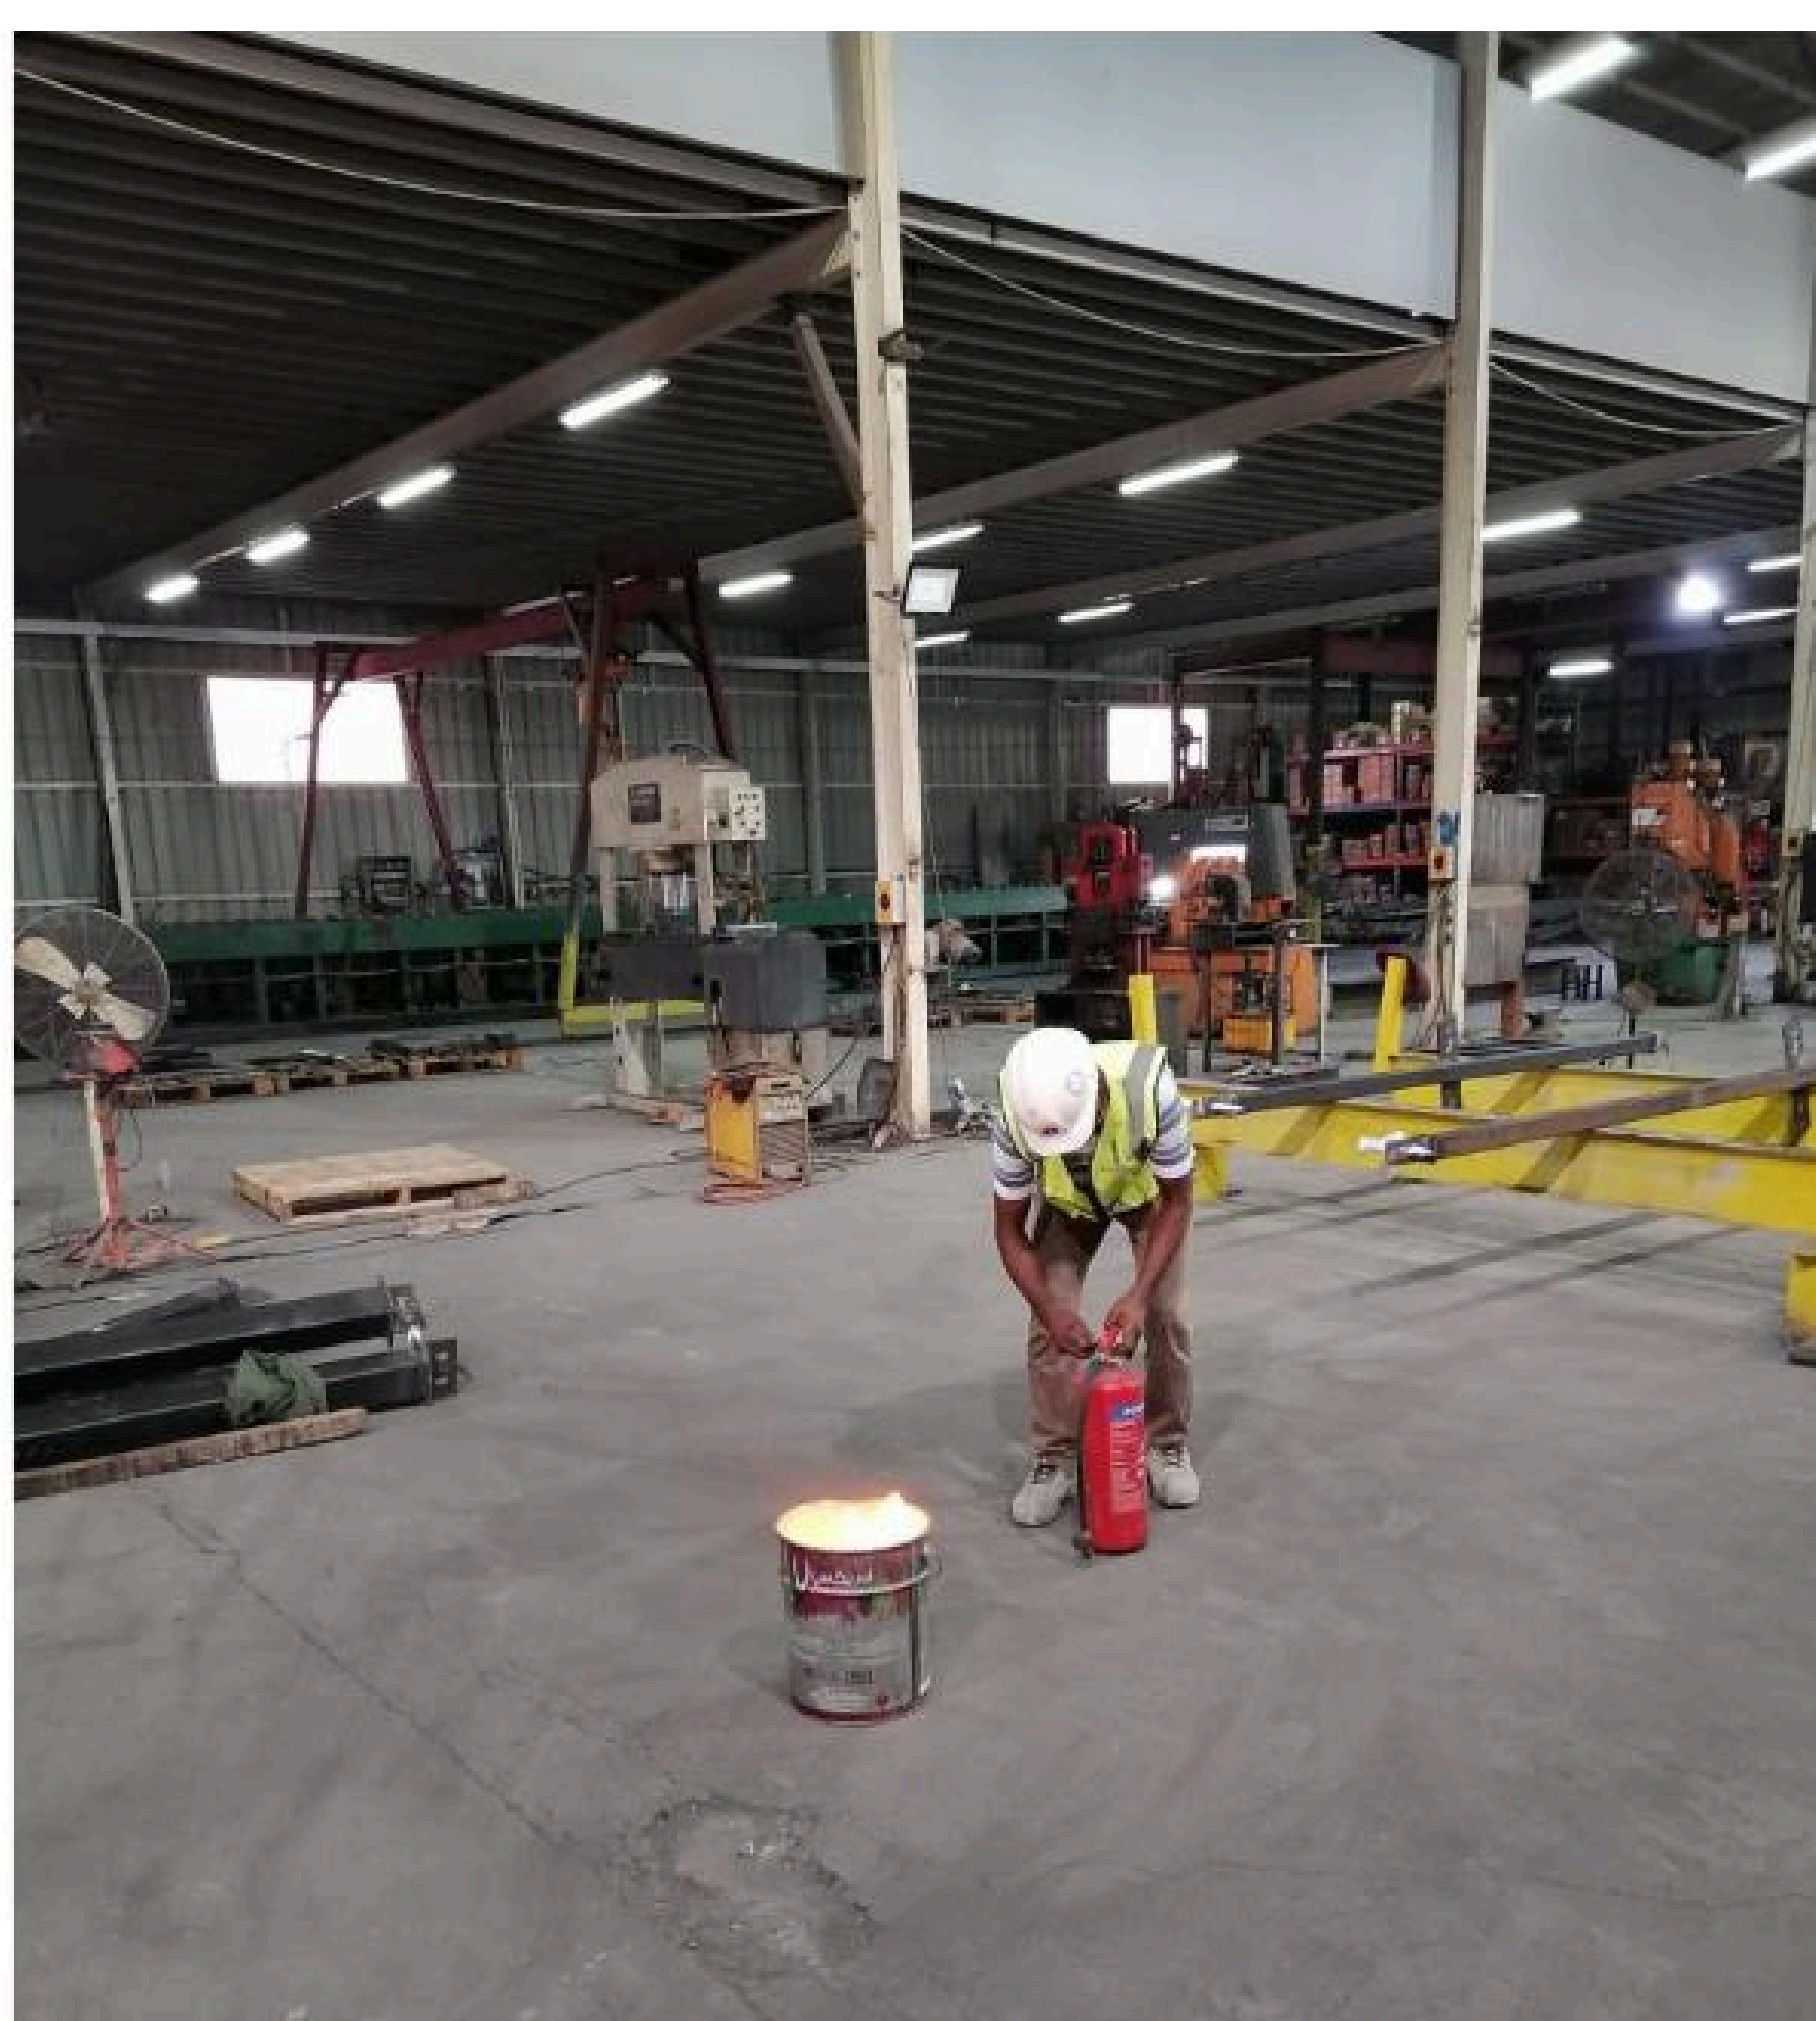

EVACUATION PROCEDURE

- 1 WHEN ALARM SOUNDS. LEAVE IMMEDIATELY BY THE NEAREST EXIT.
- 2 PROCEED IN AN ORDERLY MANNER TO ASSEMBLY POINT.
- 3 REMAIN AT ASSEMBLY POINT UNTIL ALL-CLEAR IS GIVEN.

Be Aware
Be Ready**

EMERGENCY RULES ----- DO NOT RUN ... DO NOT SHOUT ... & DO NOT PUSH

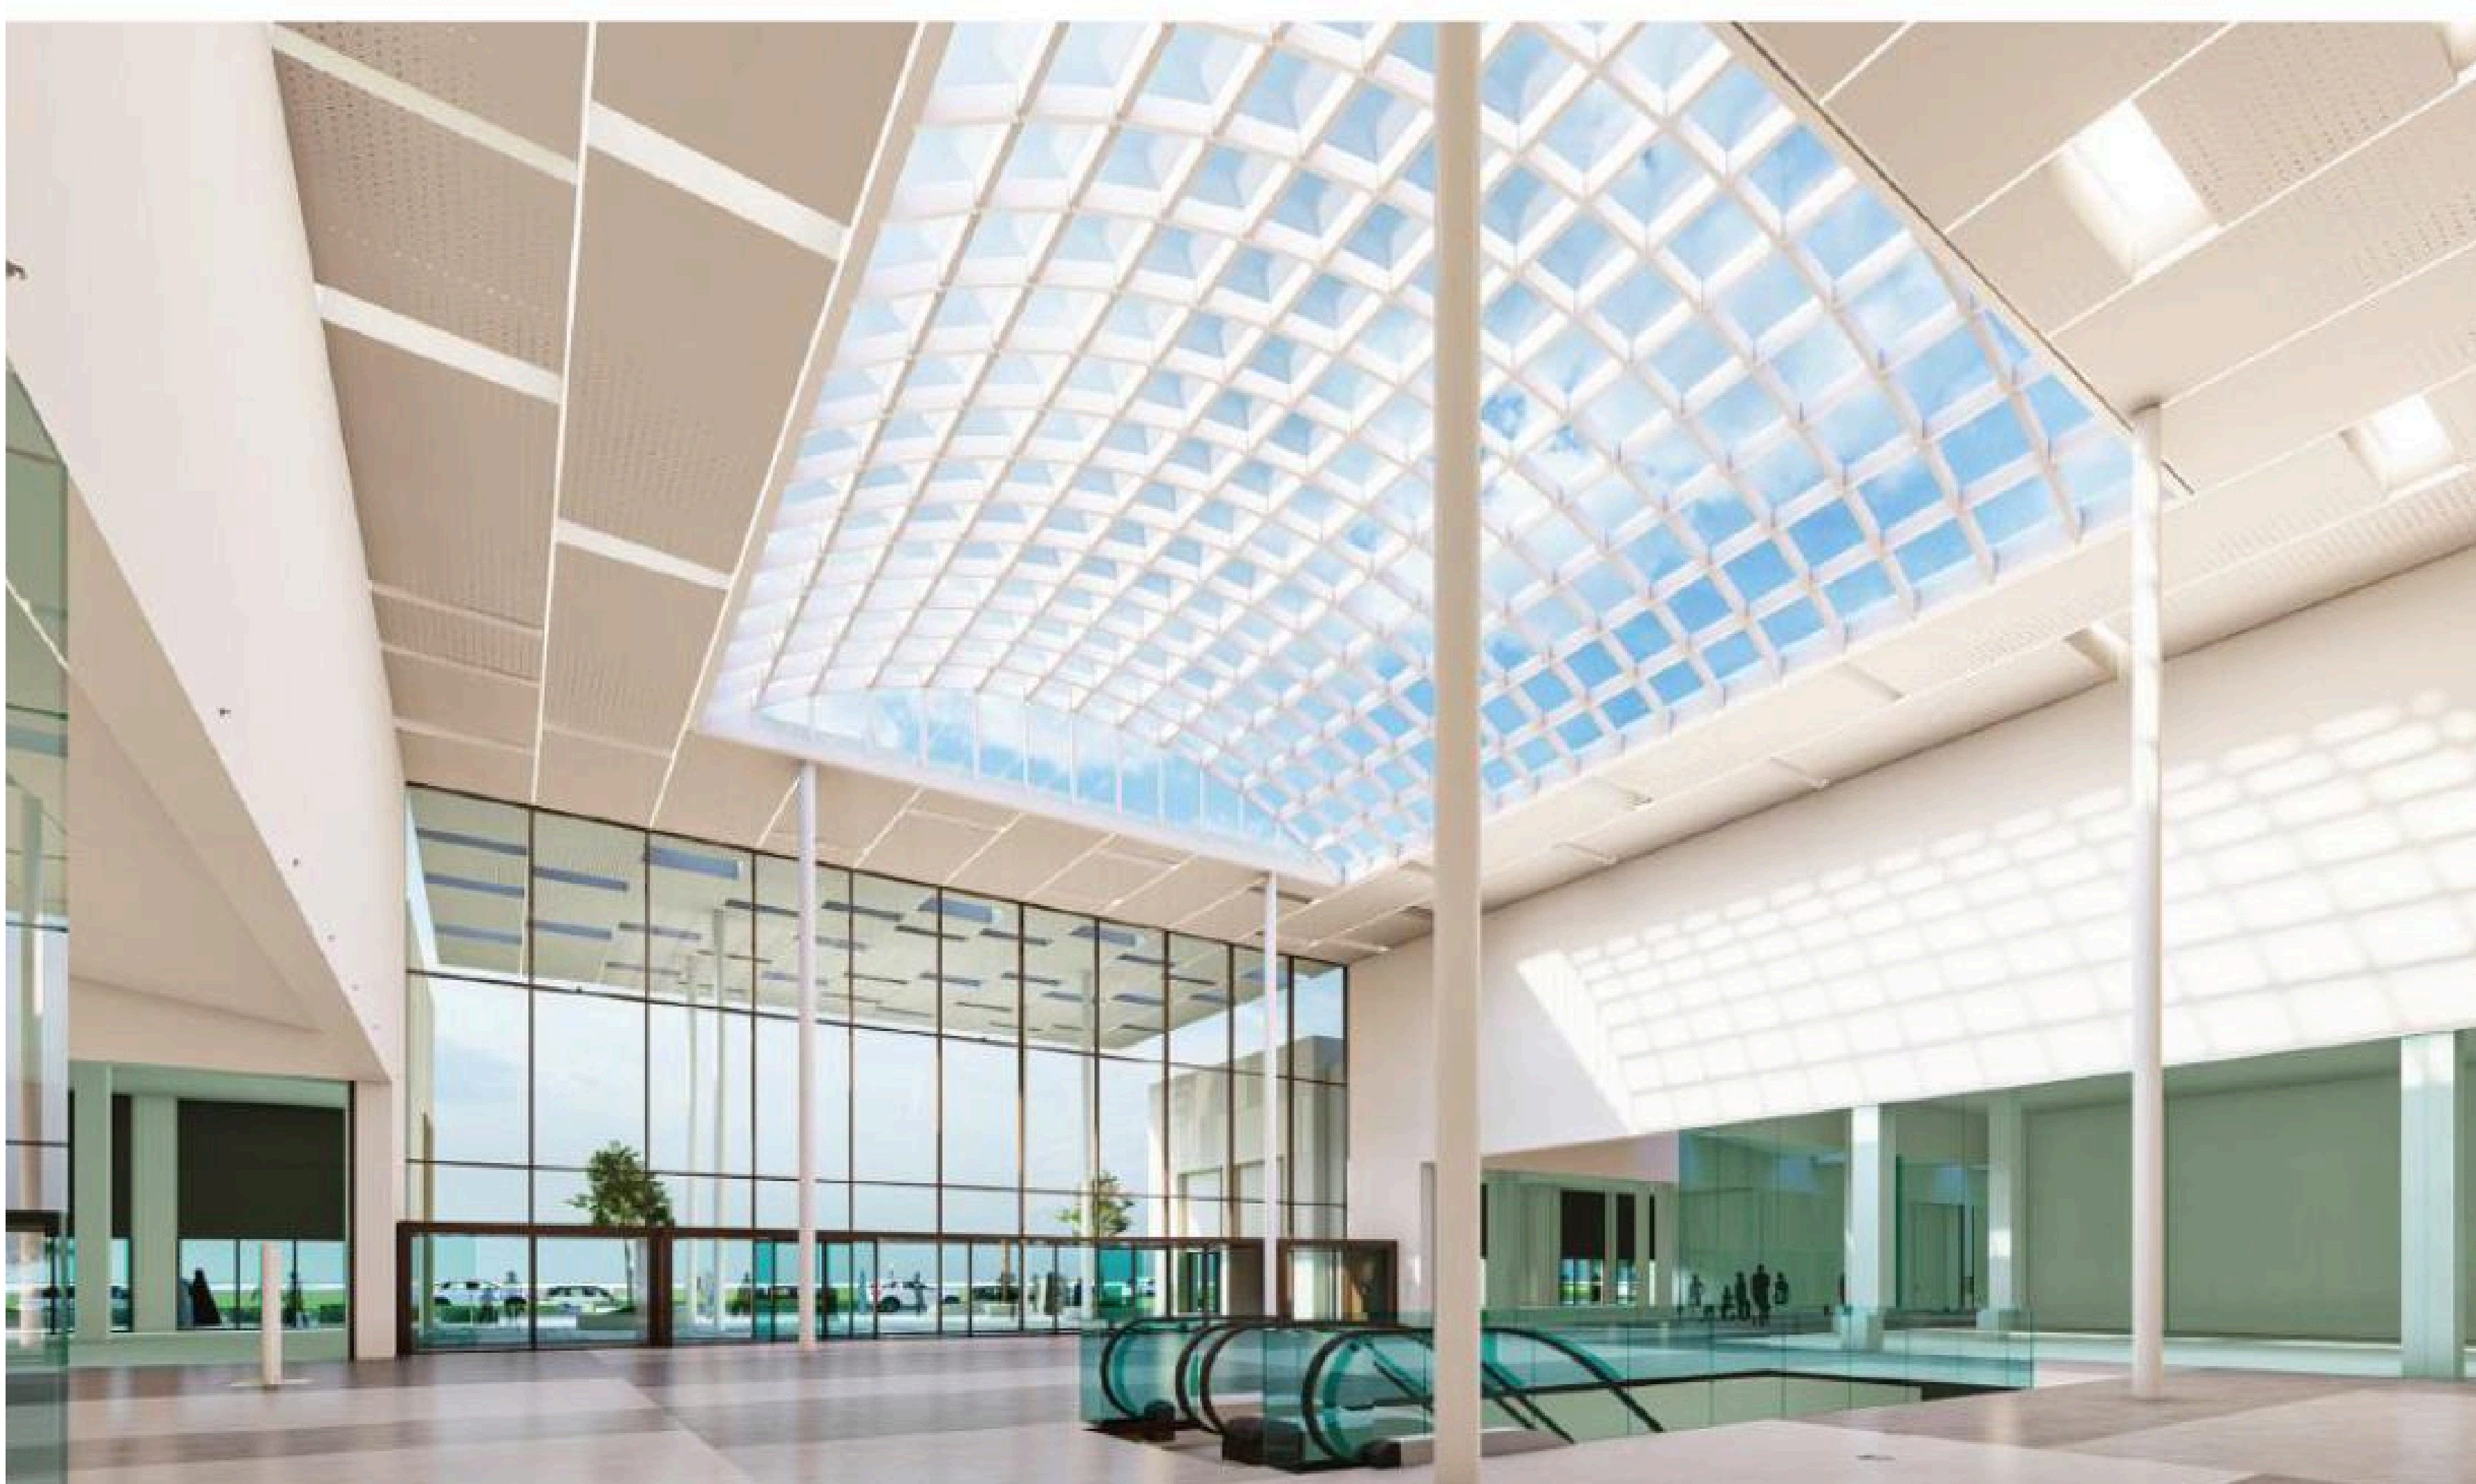

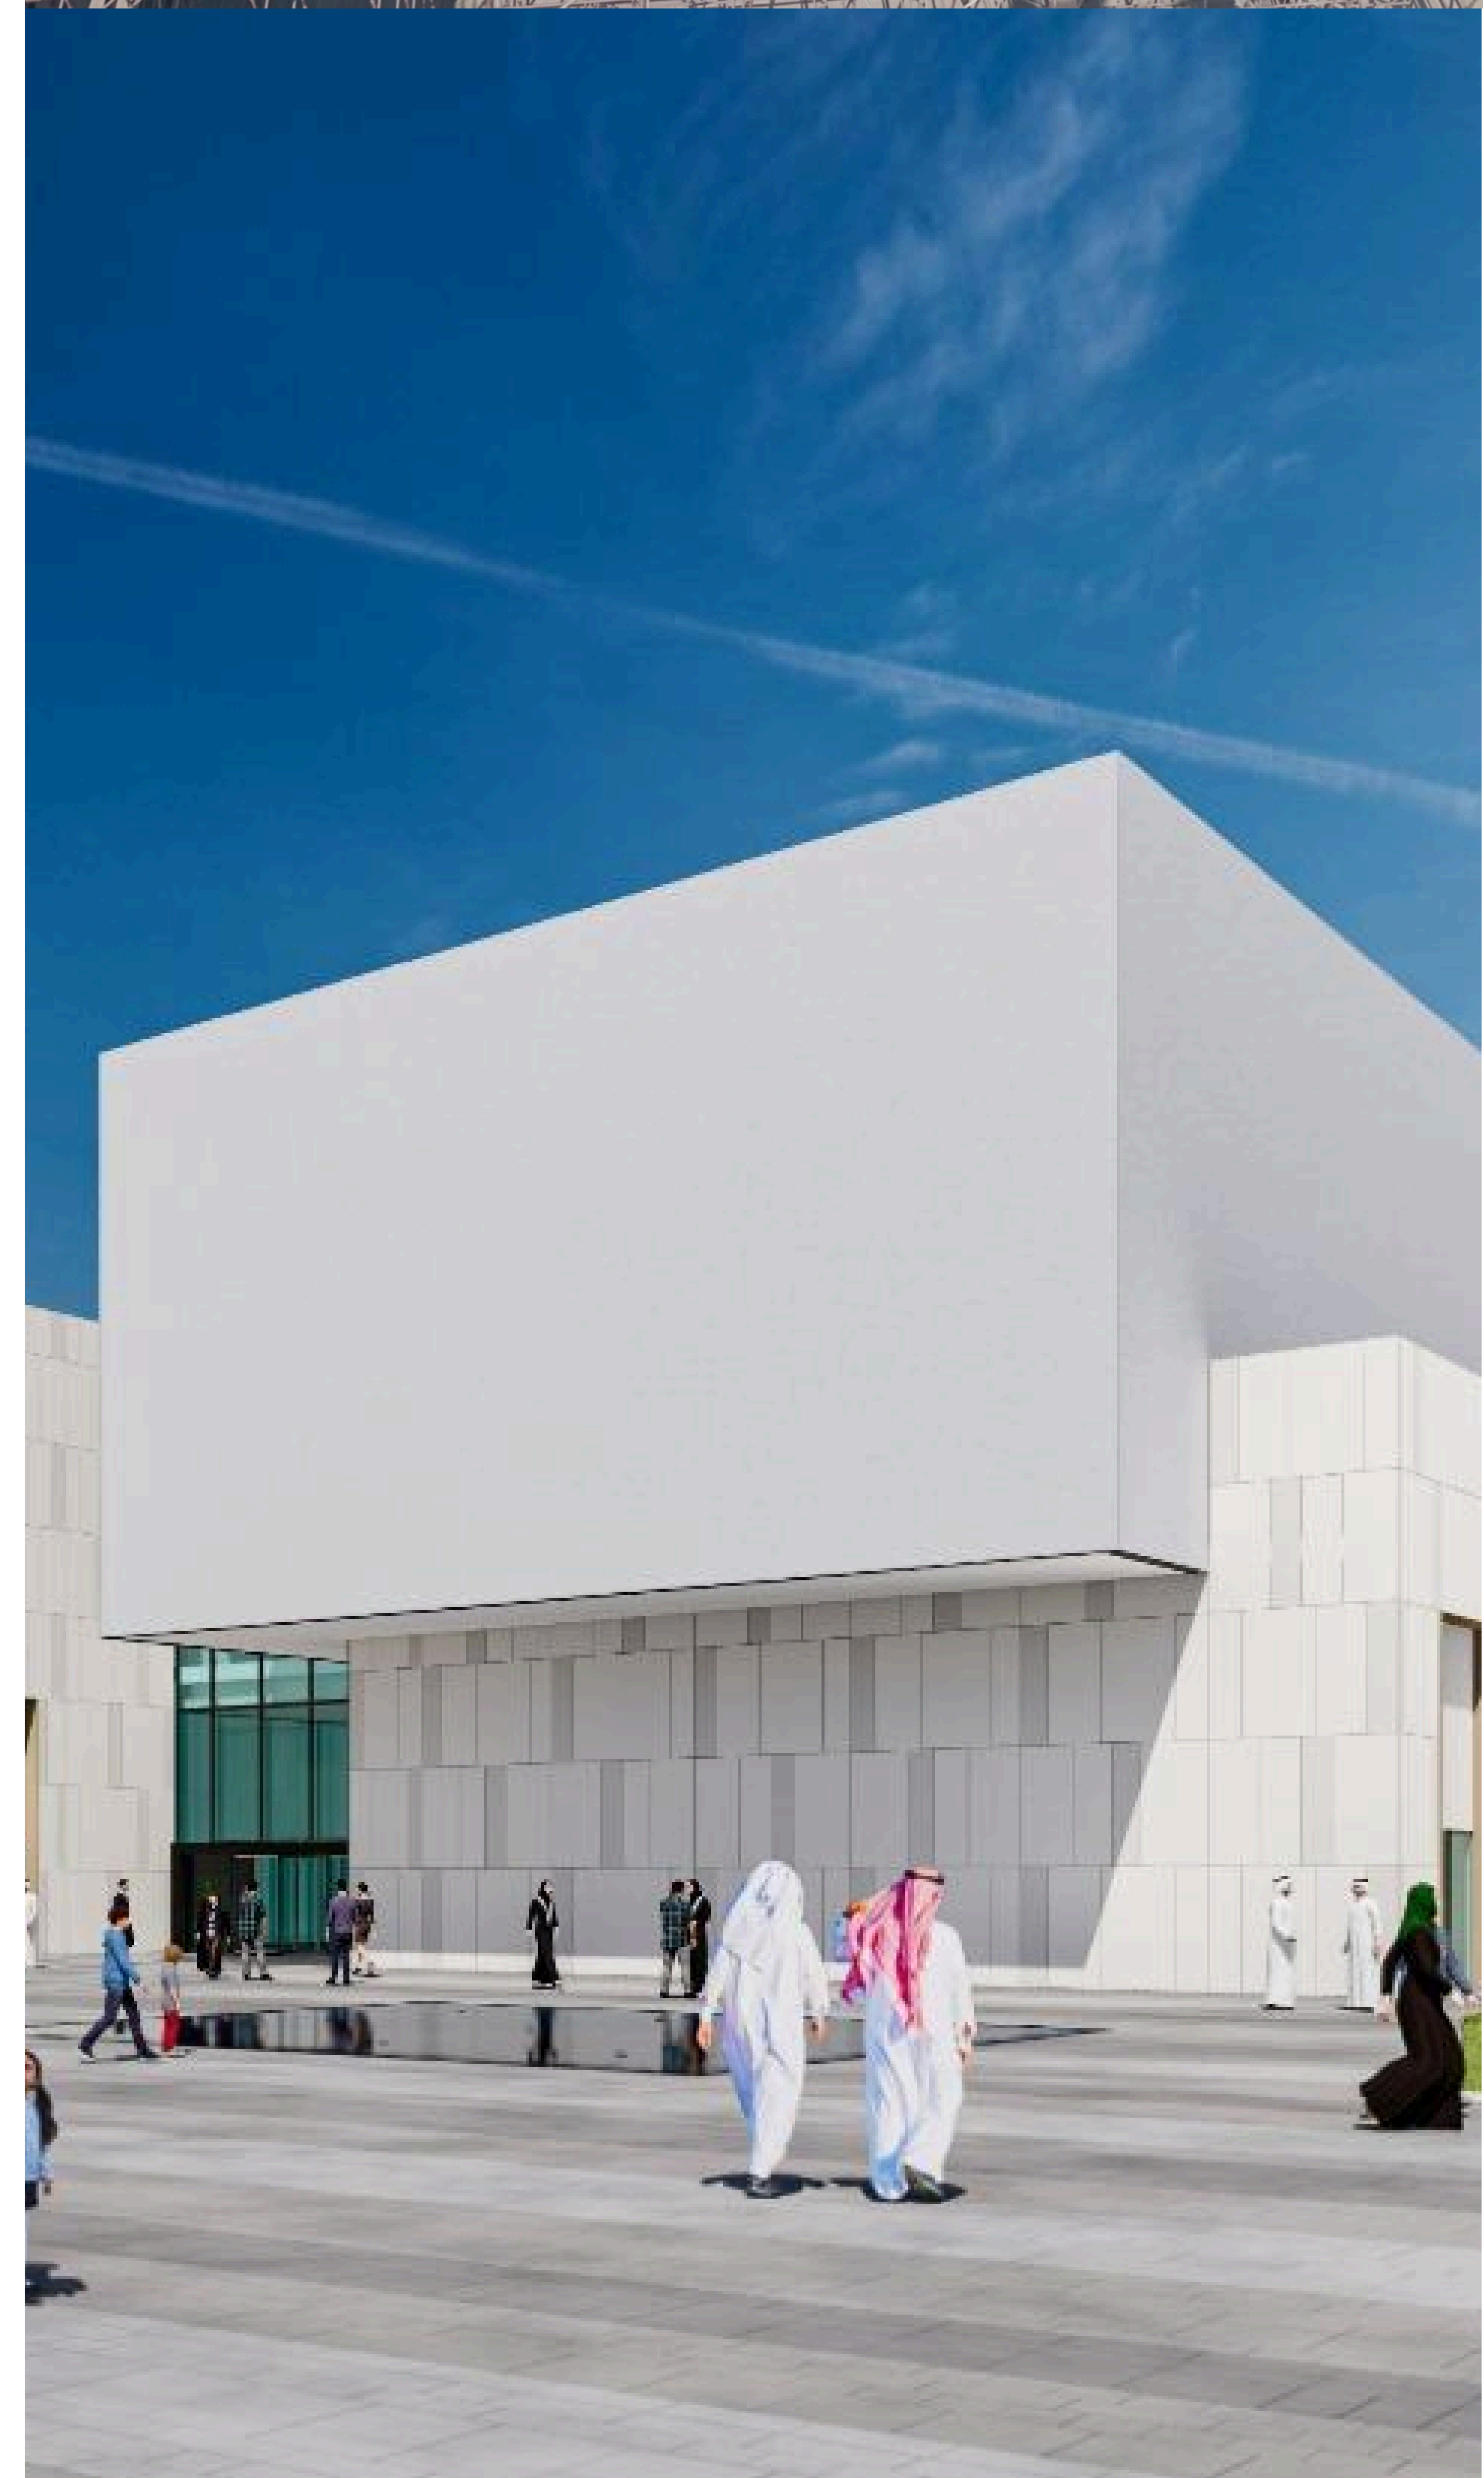

Case Study

Project: Dome Structure at Al Waab City

Scope: End-to-end steel structure design and installation

Timeline: 9 months

Outcome: Delivered ahead of schedule, zero safety incidents

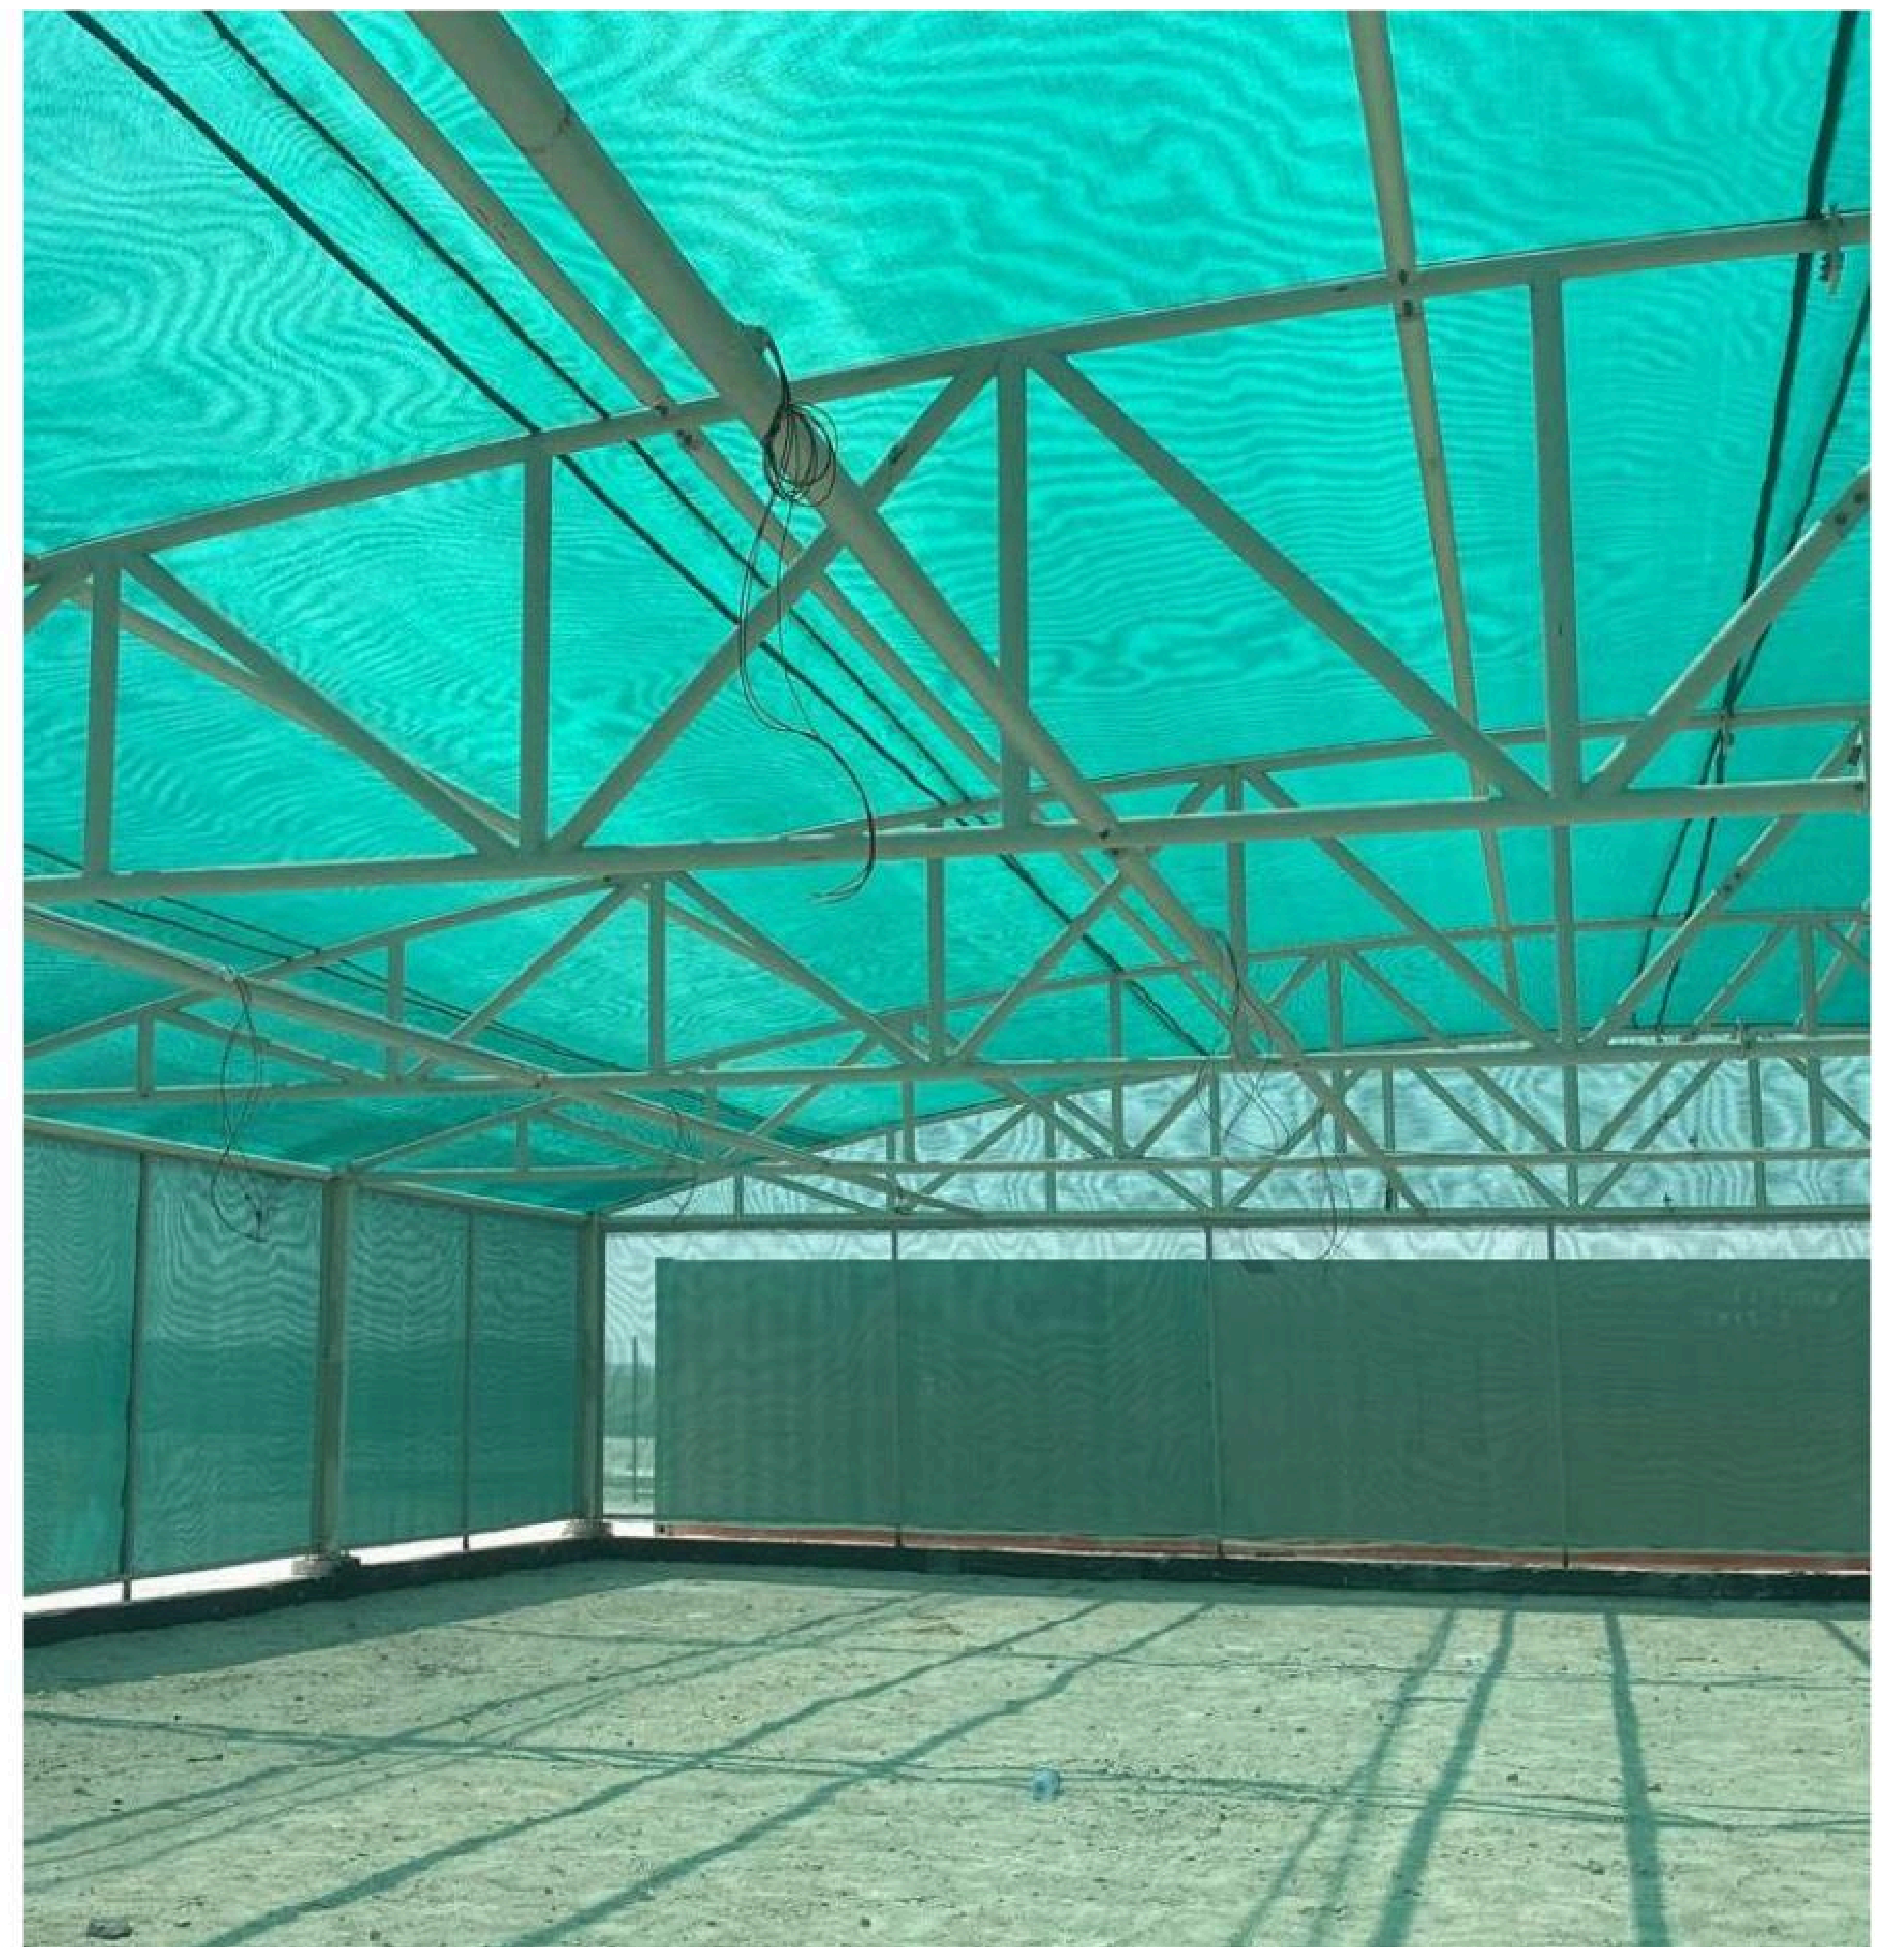

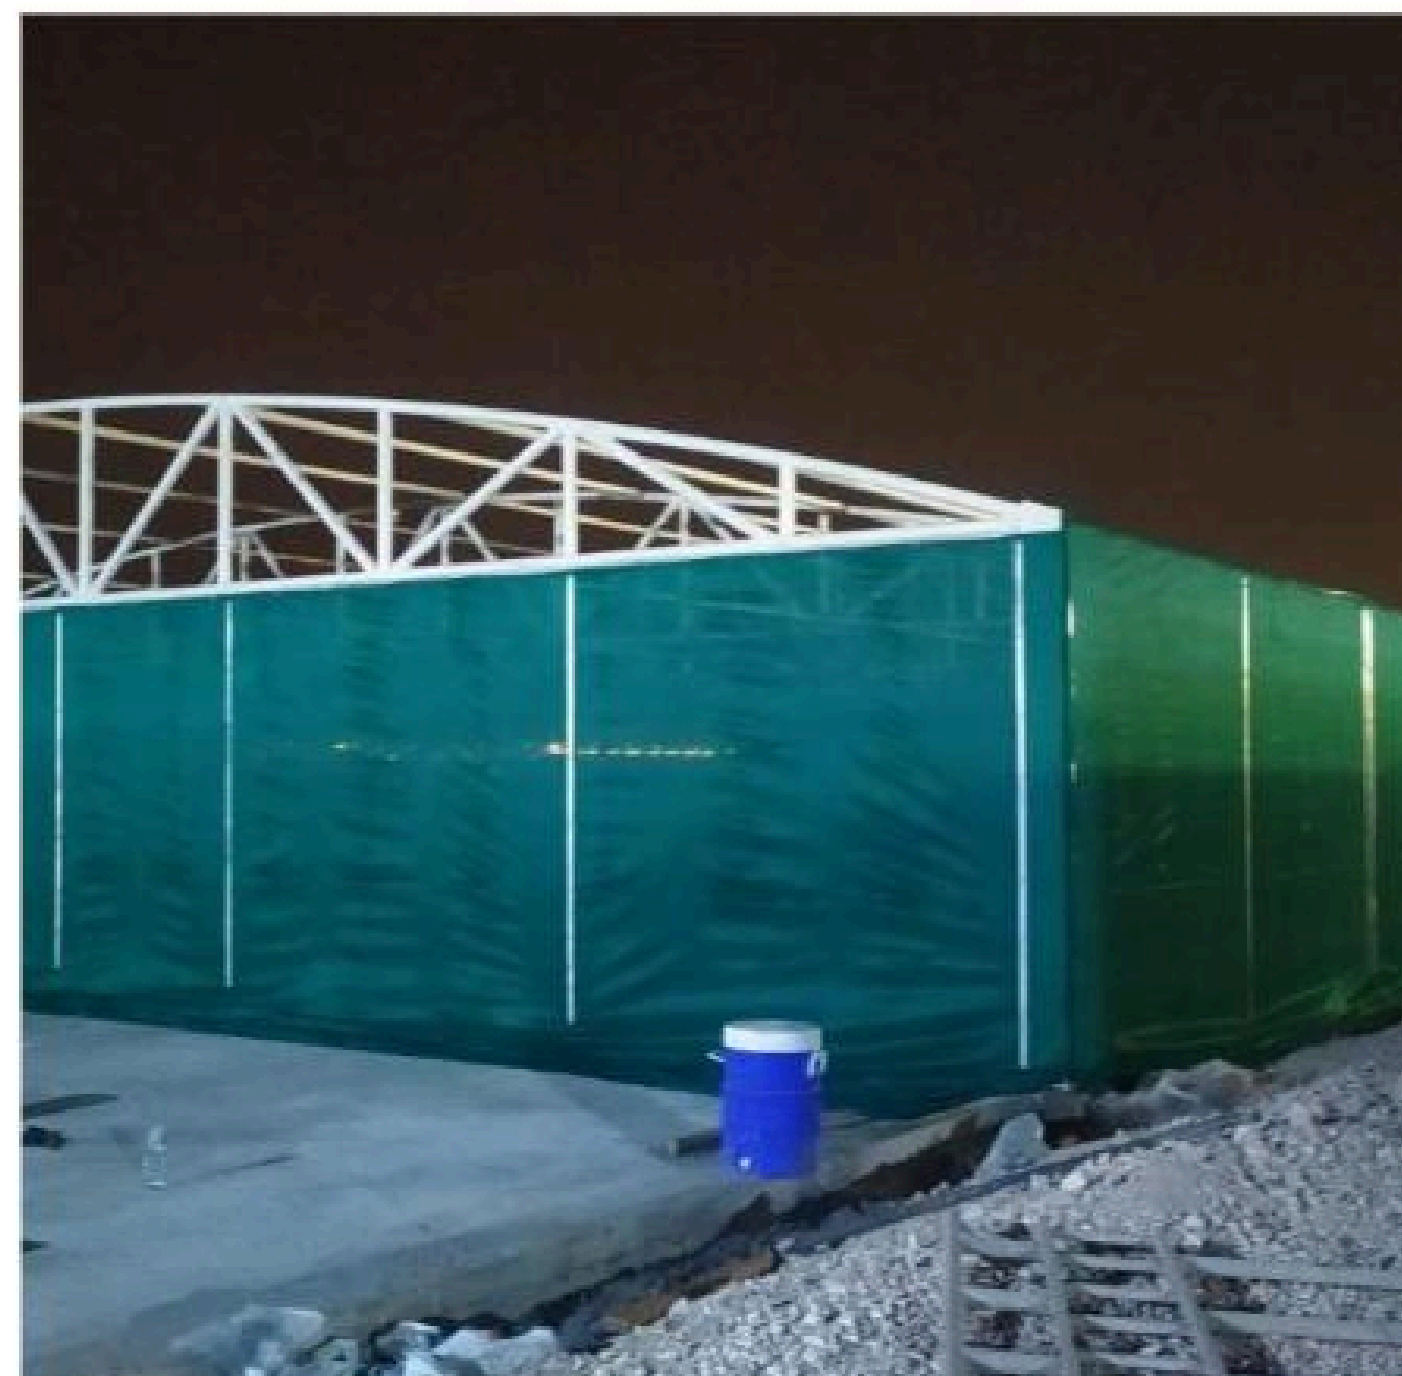

Project: Green House

Scope: End-to-end steel structure design and installation

Timeline: 3 months

Outcome: Delivered ahead of schedule, zero safety incidents

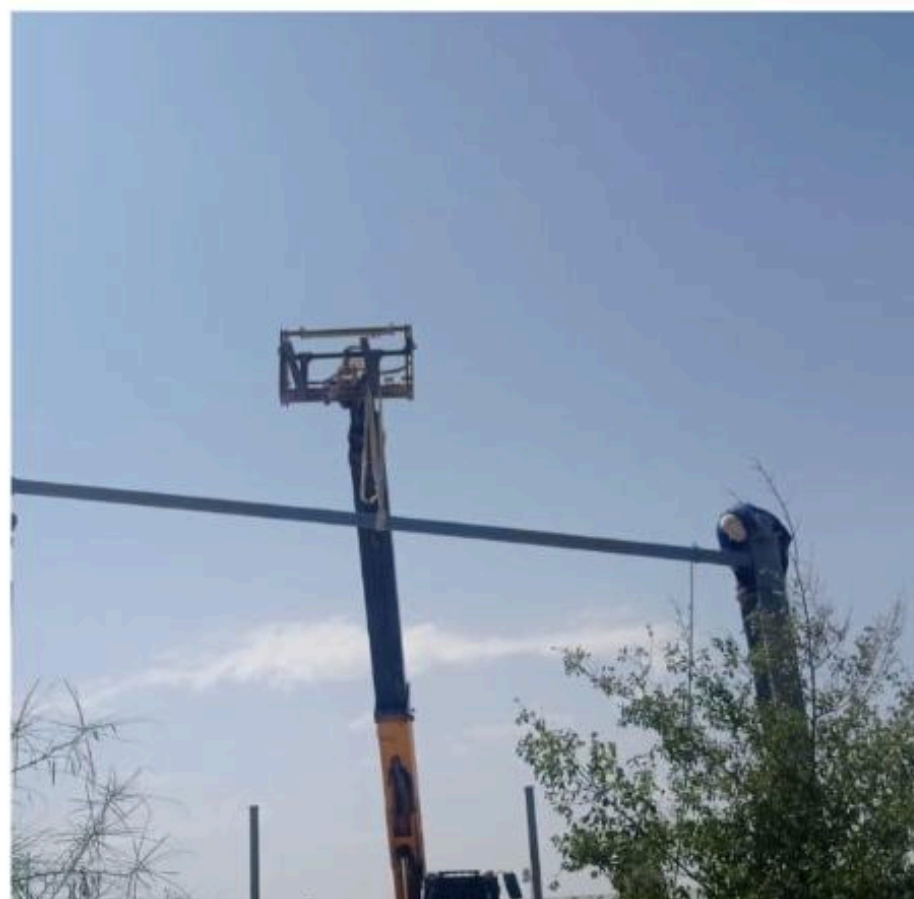

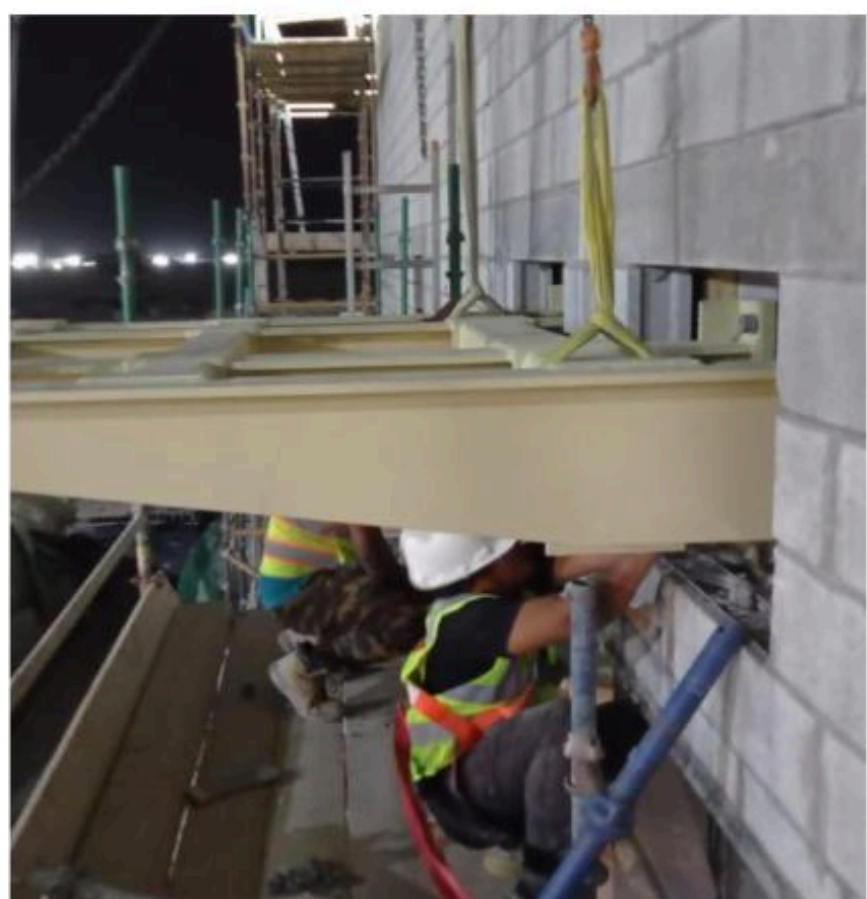

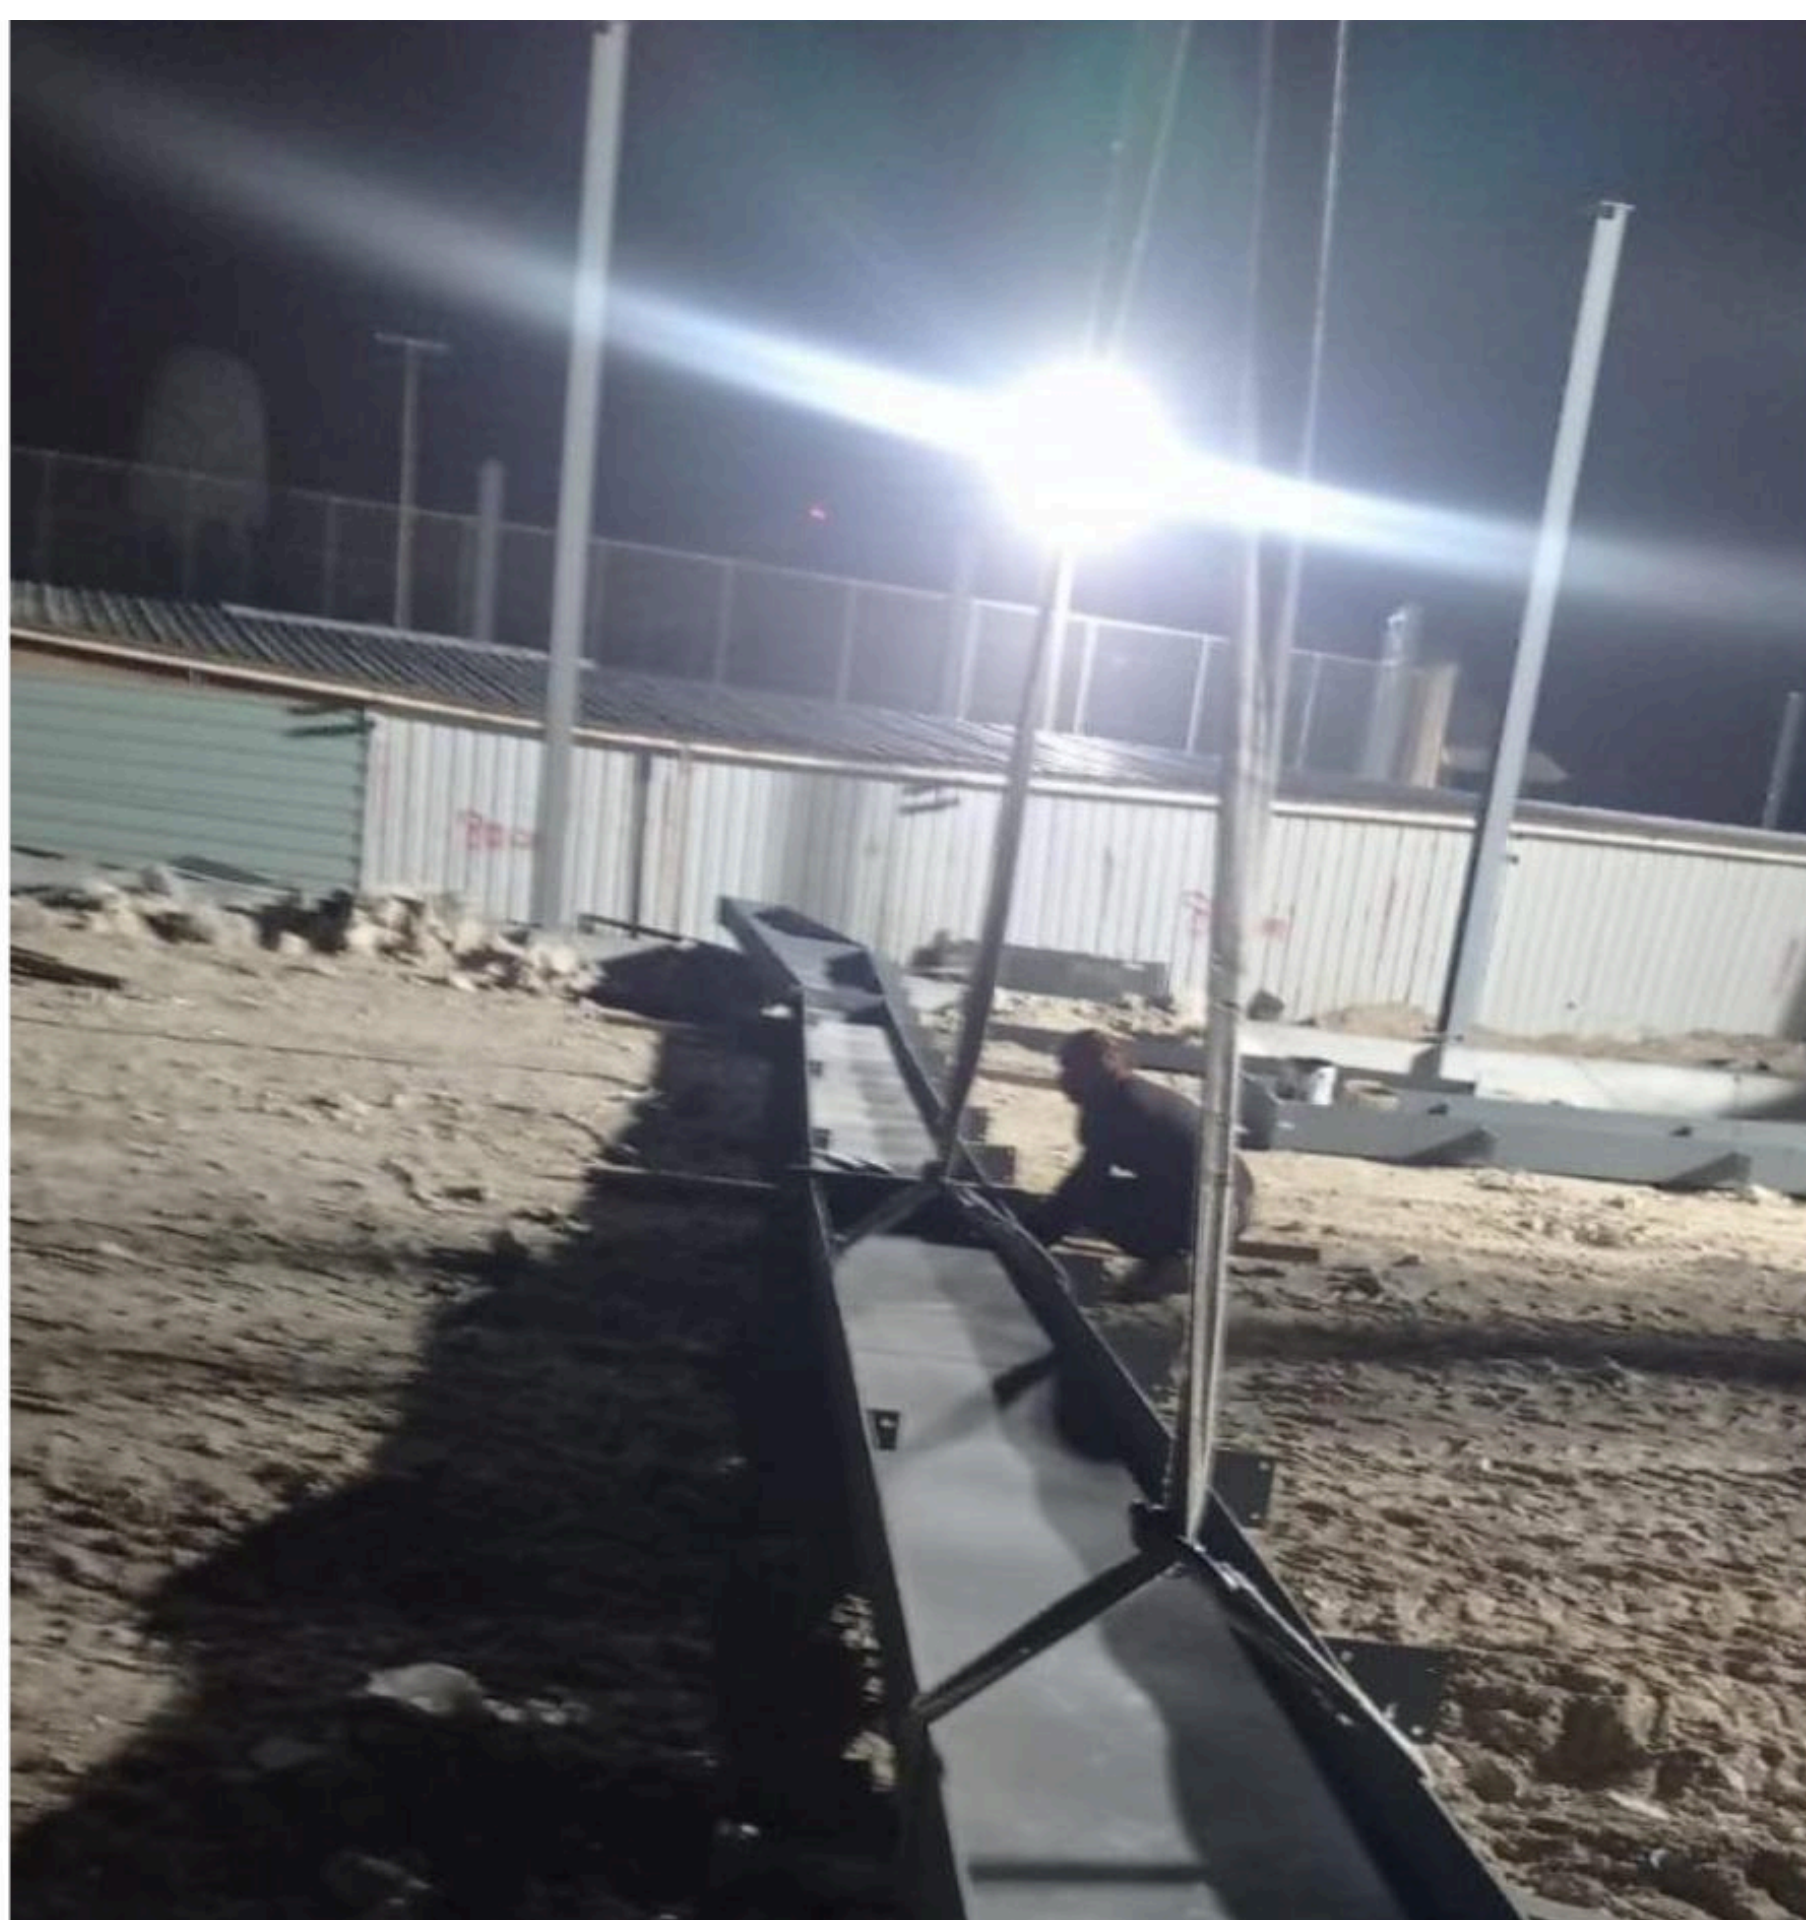

Project: Al Khor Car Storage Warehouse

Scope: End-to-end steel structure design and installation

Timeline: 6 months

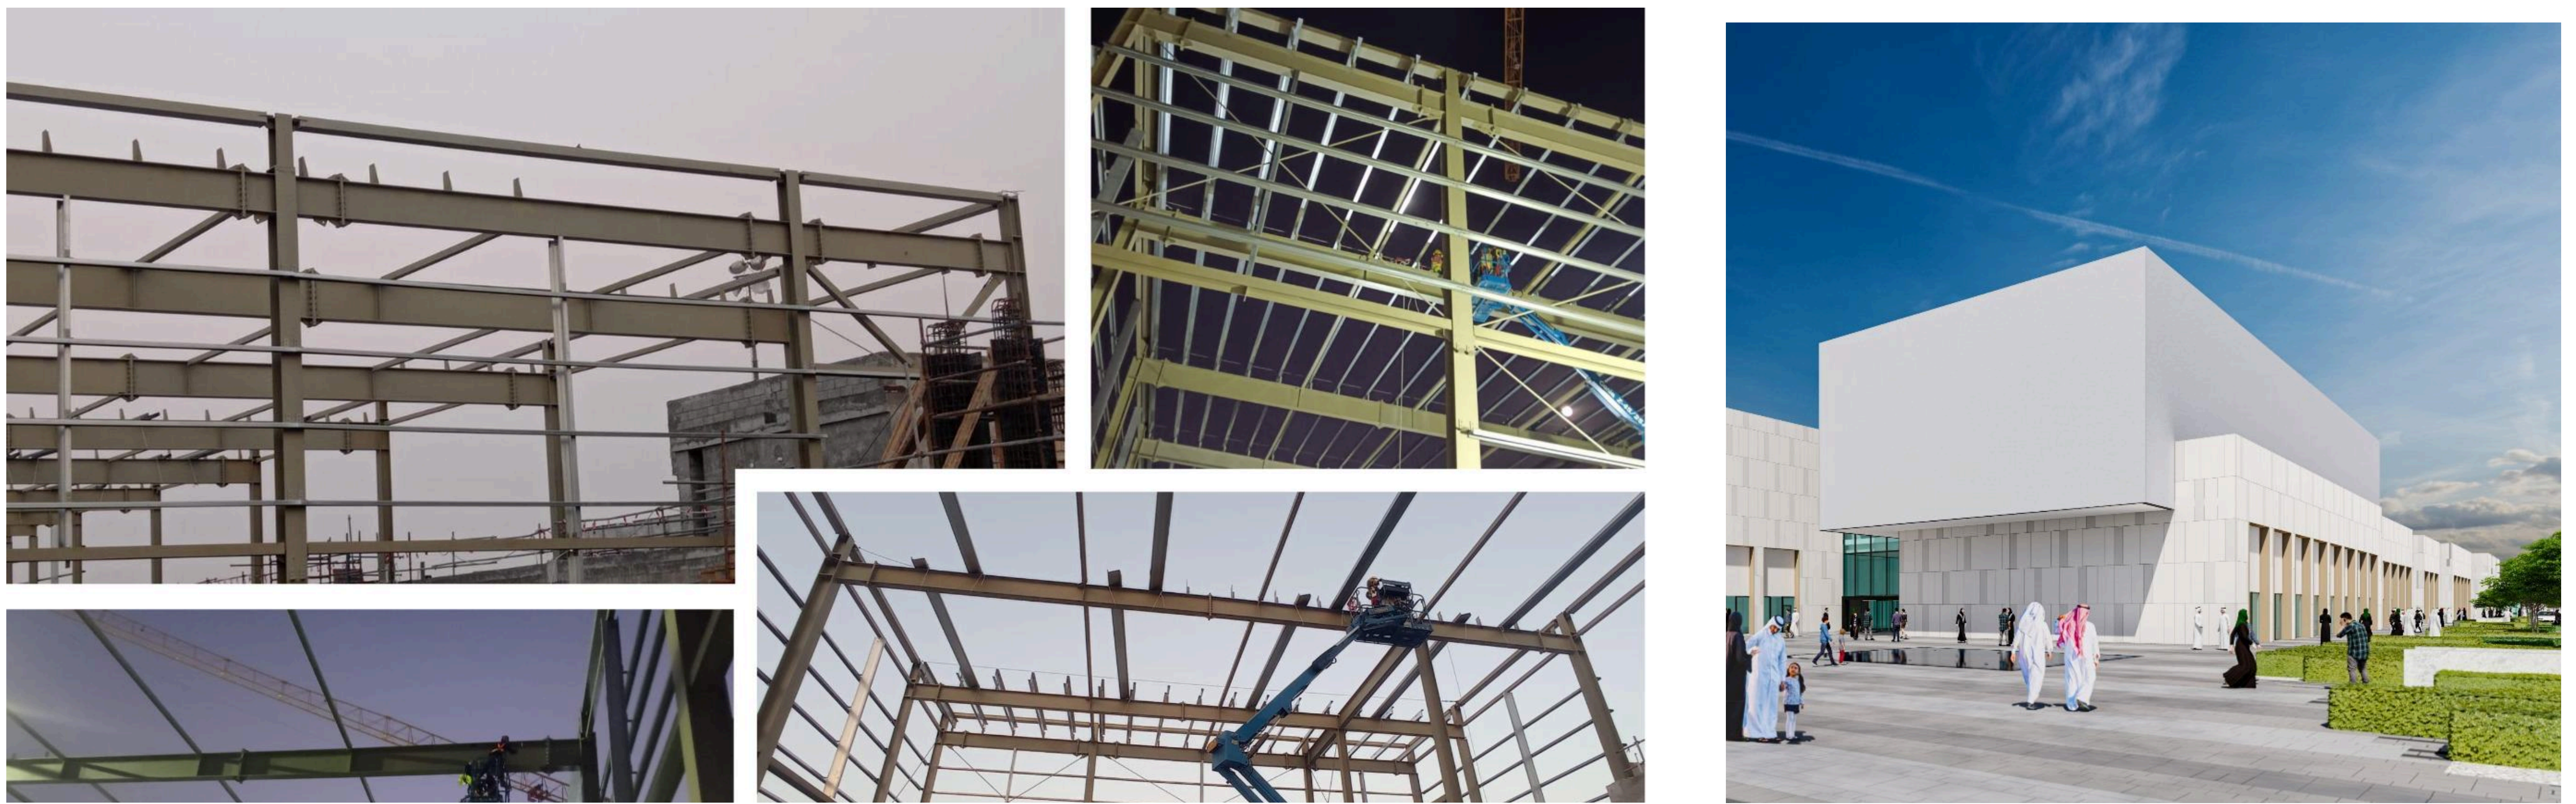

Outcome: Delivered ahead of schedule, zero safety incidents

Completed Projects

Cinema Box Structures

Global Armoring Facility

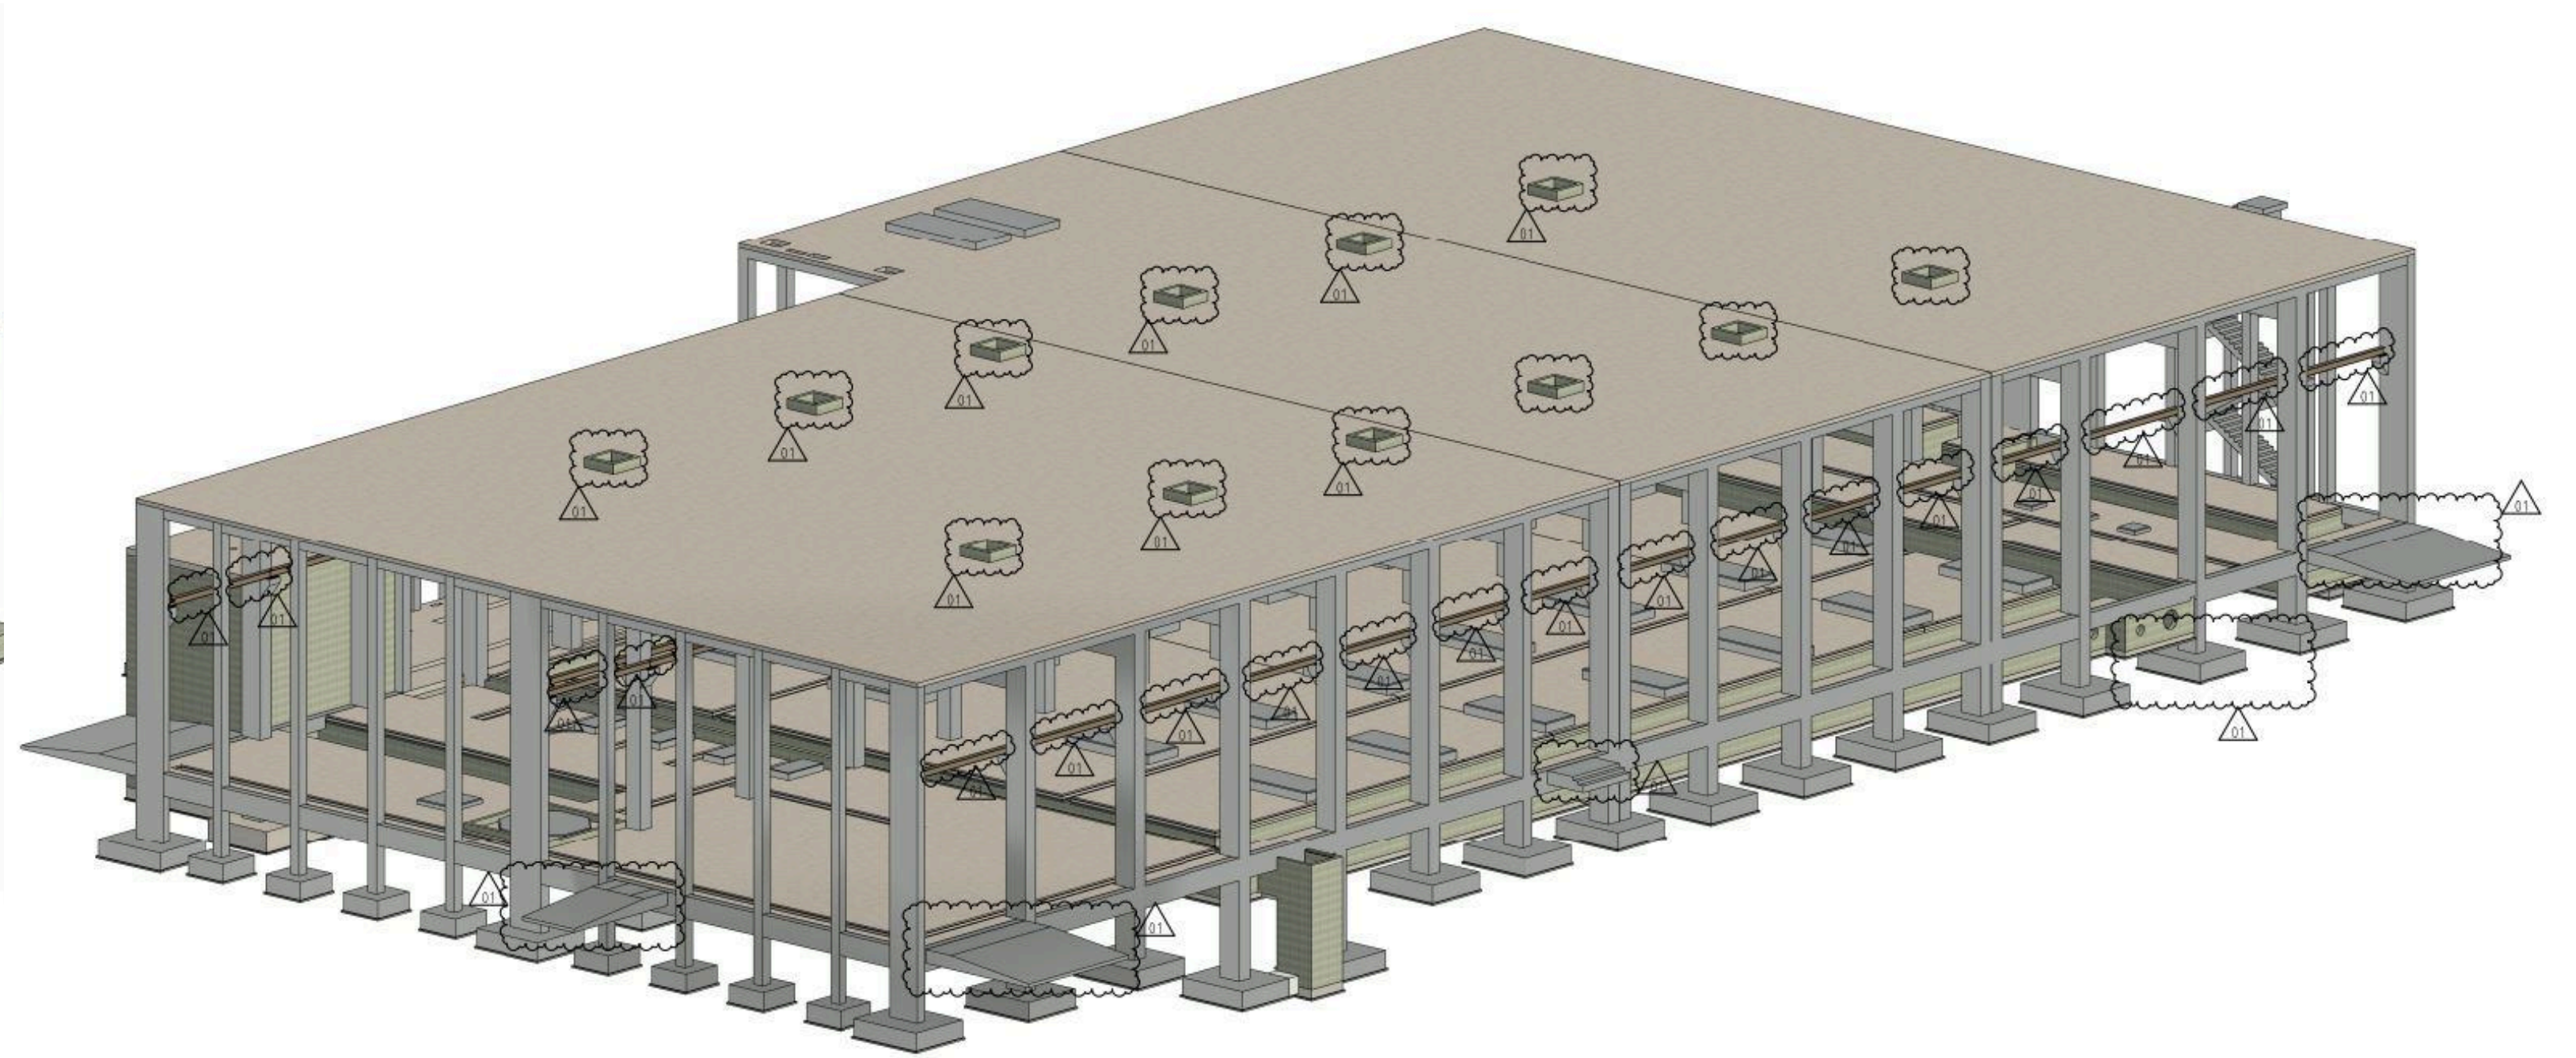

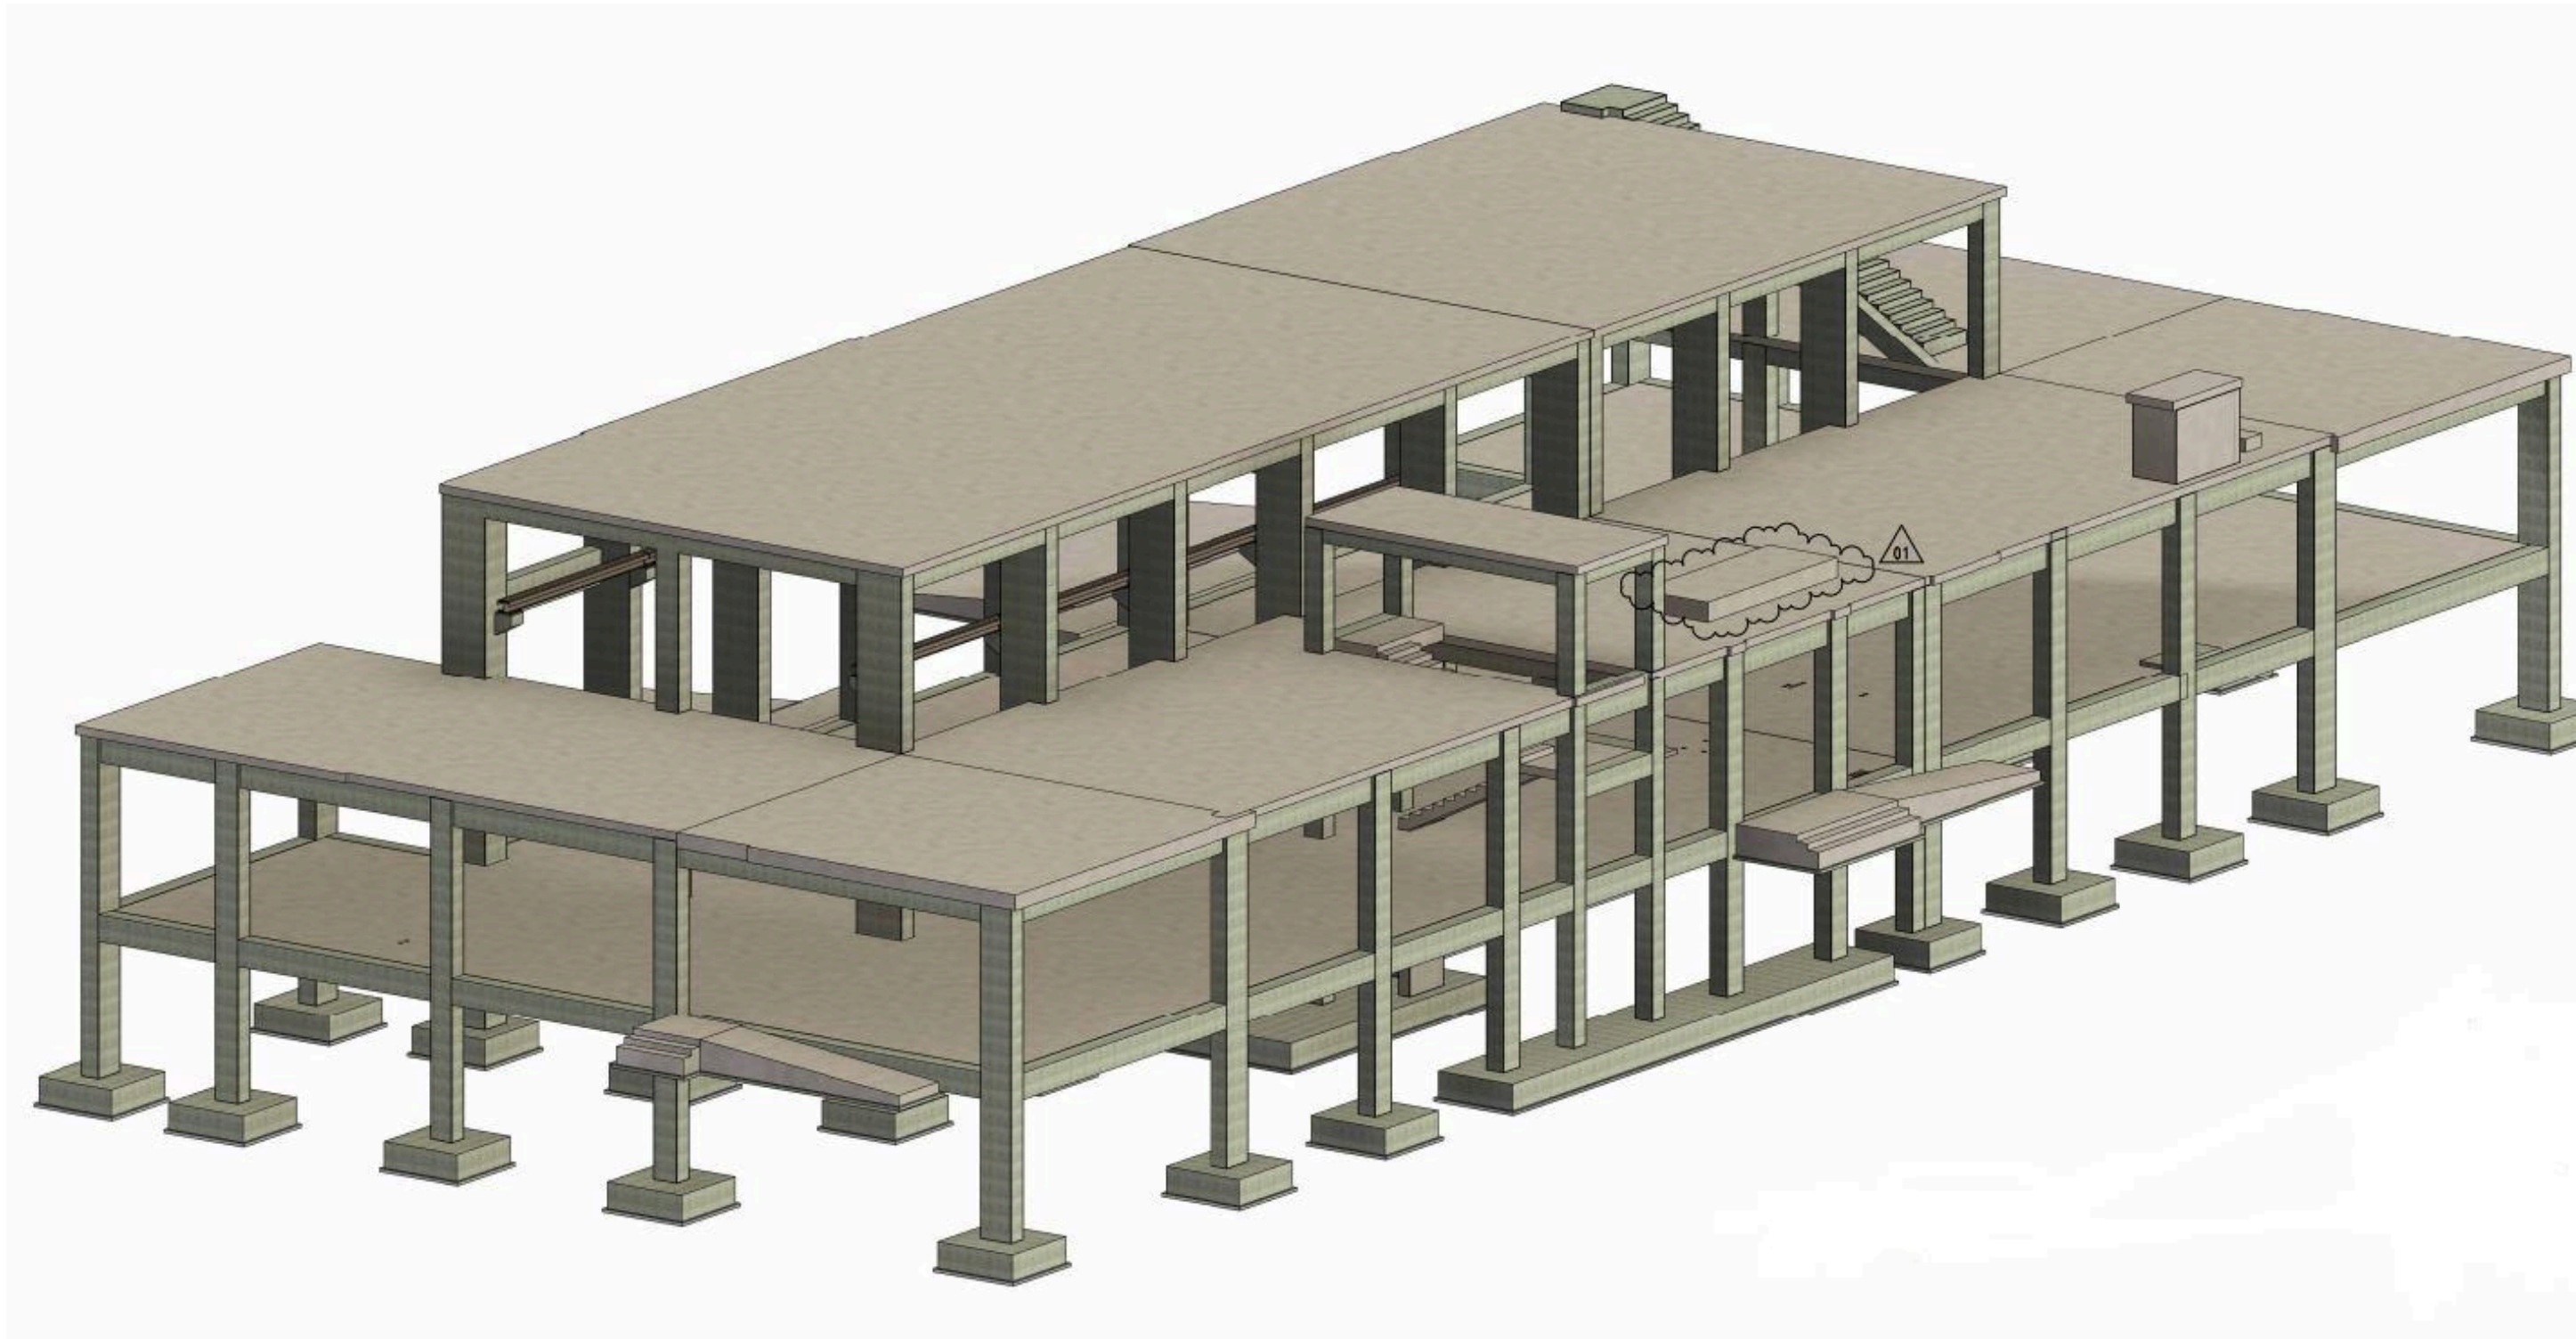

Steel Works, Qatar Foundation

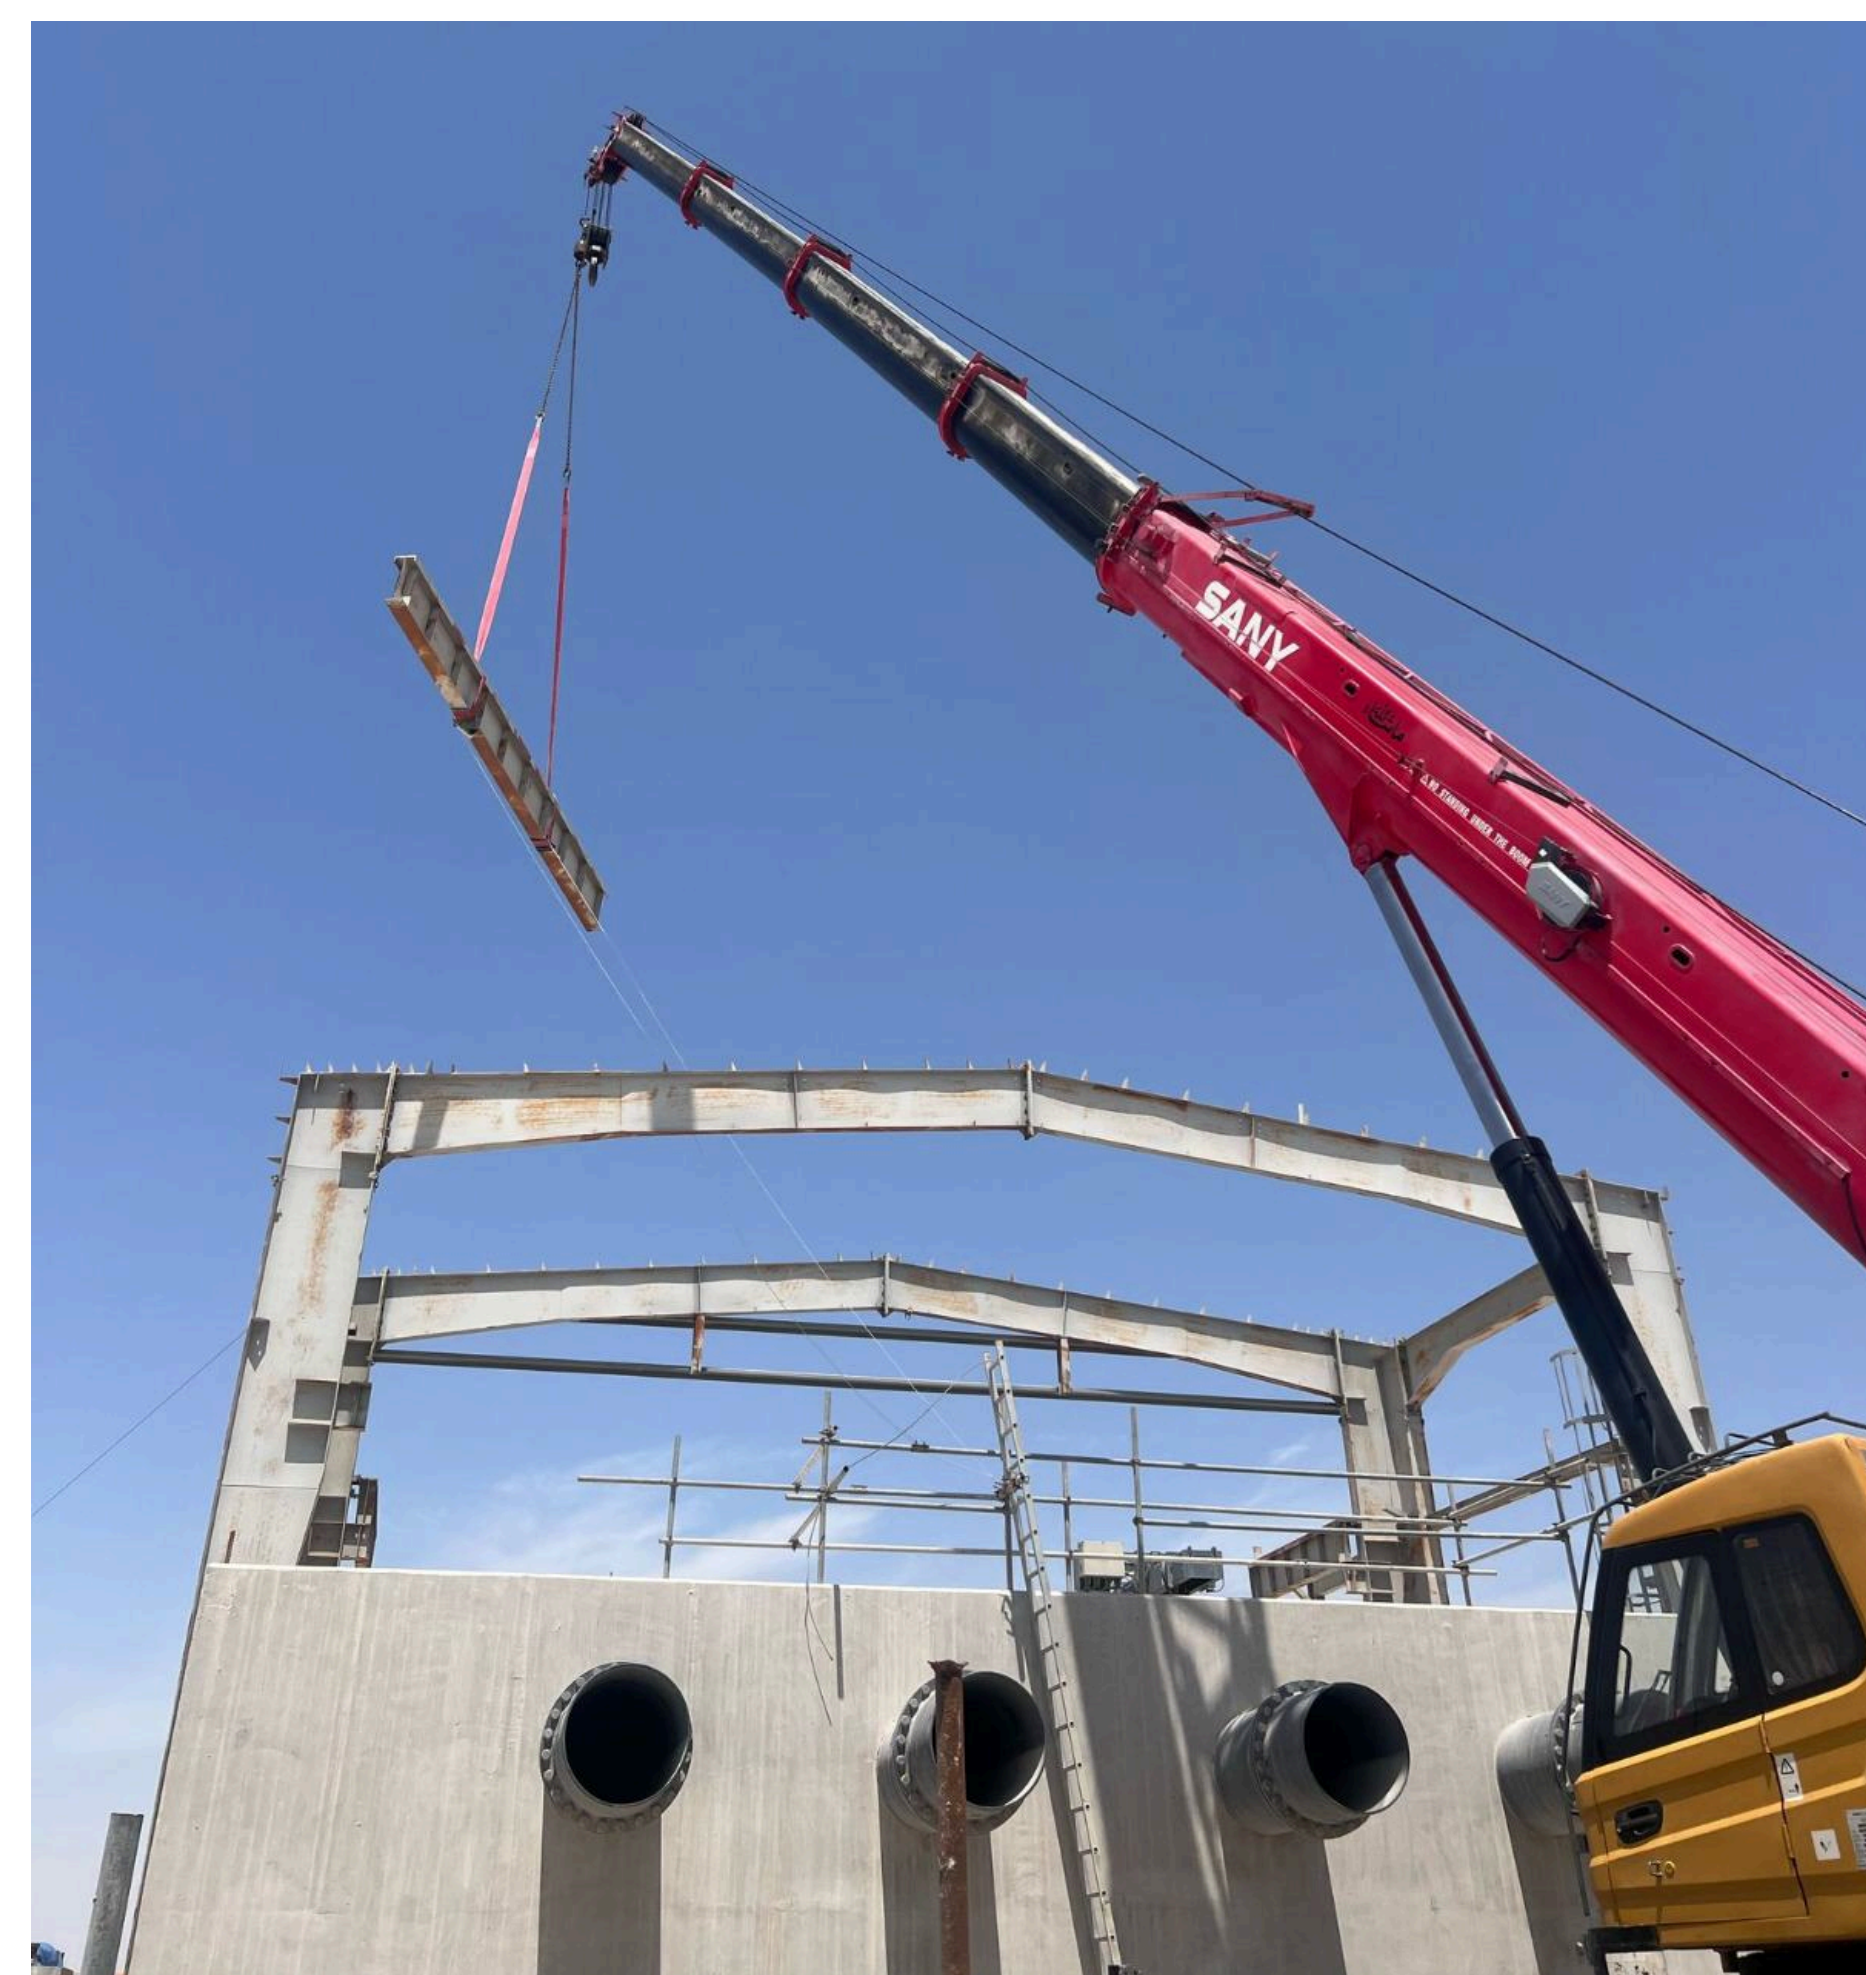

Ongoing Projects

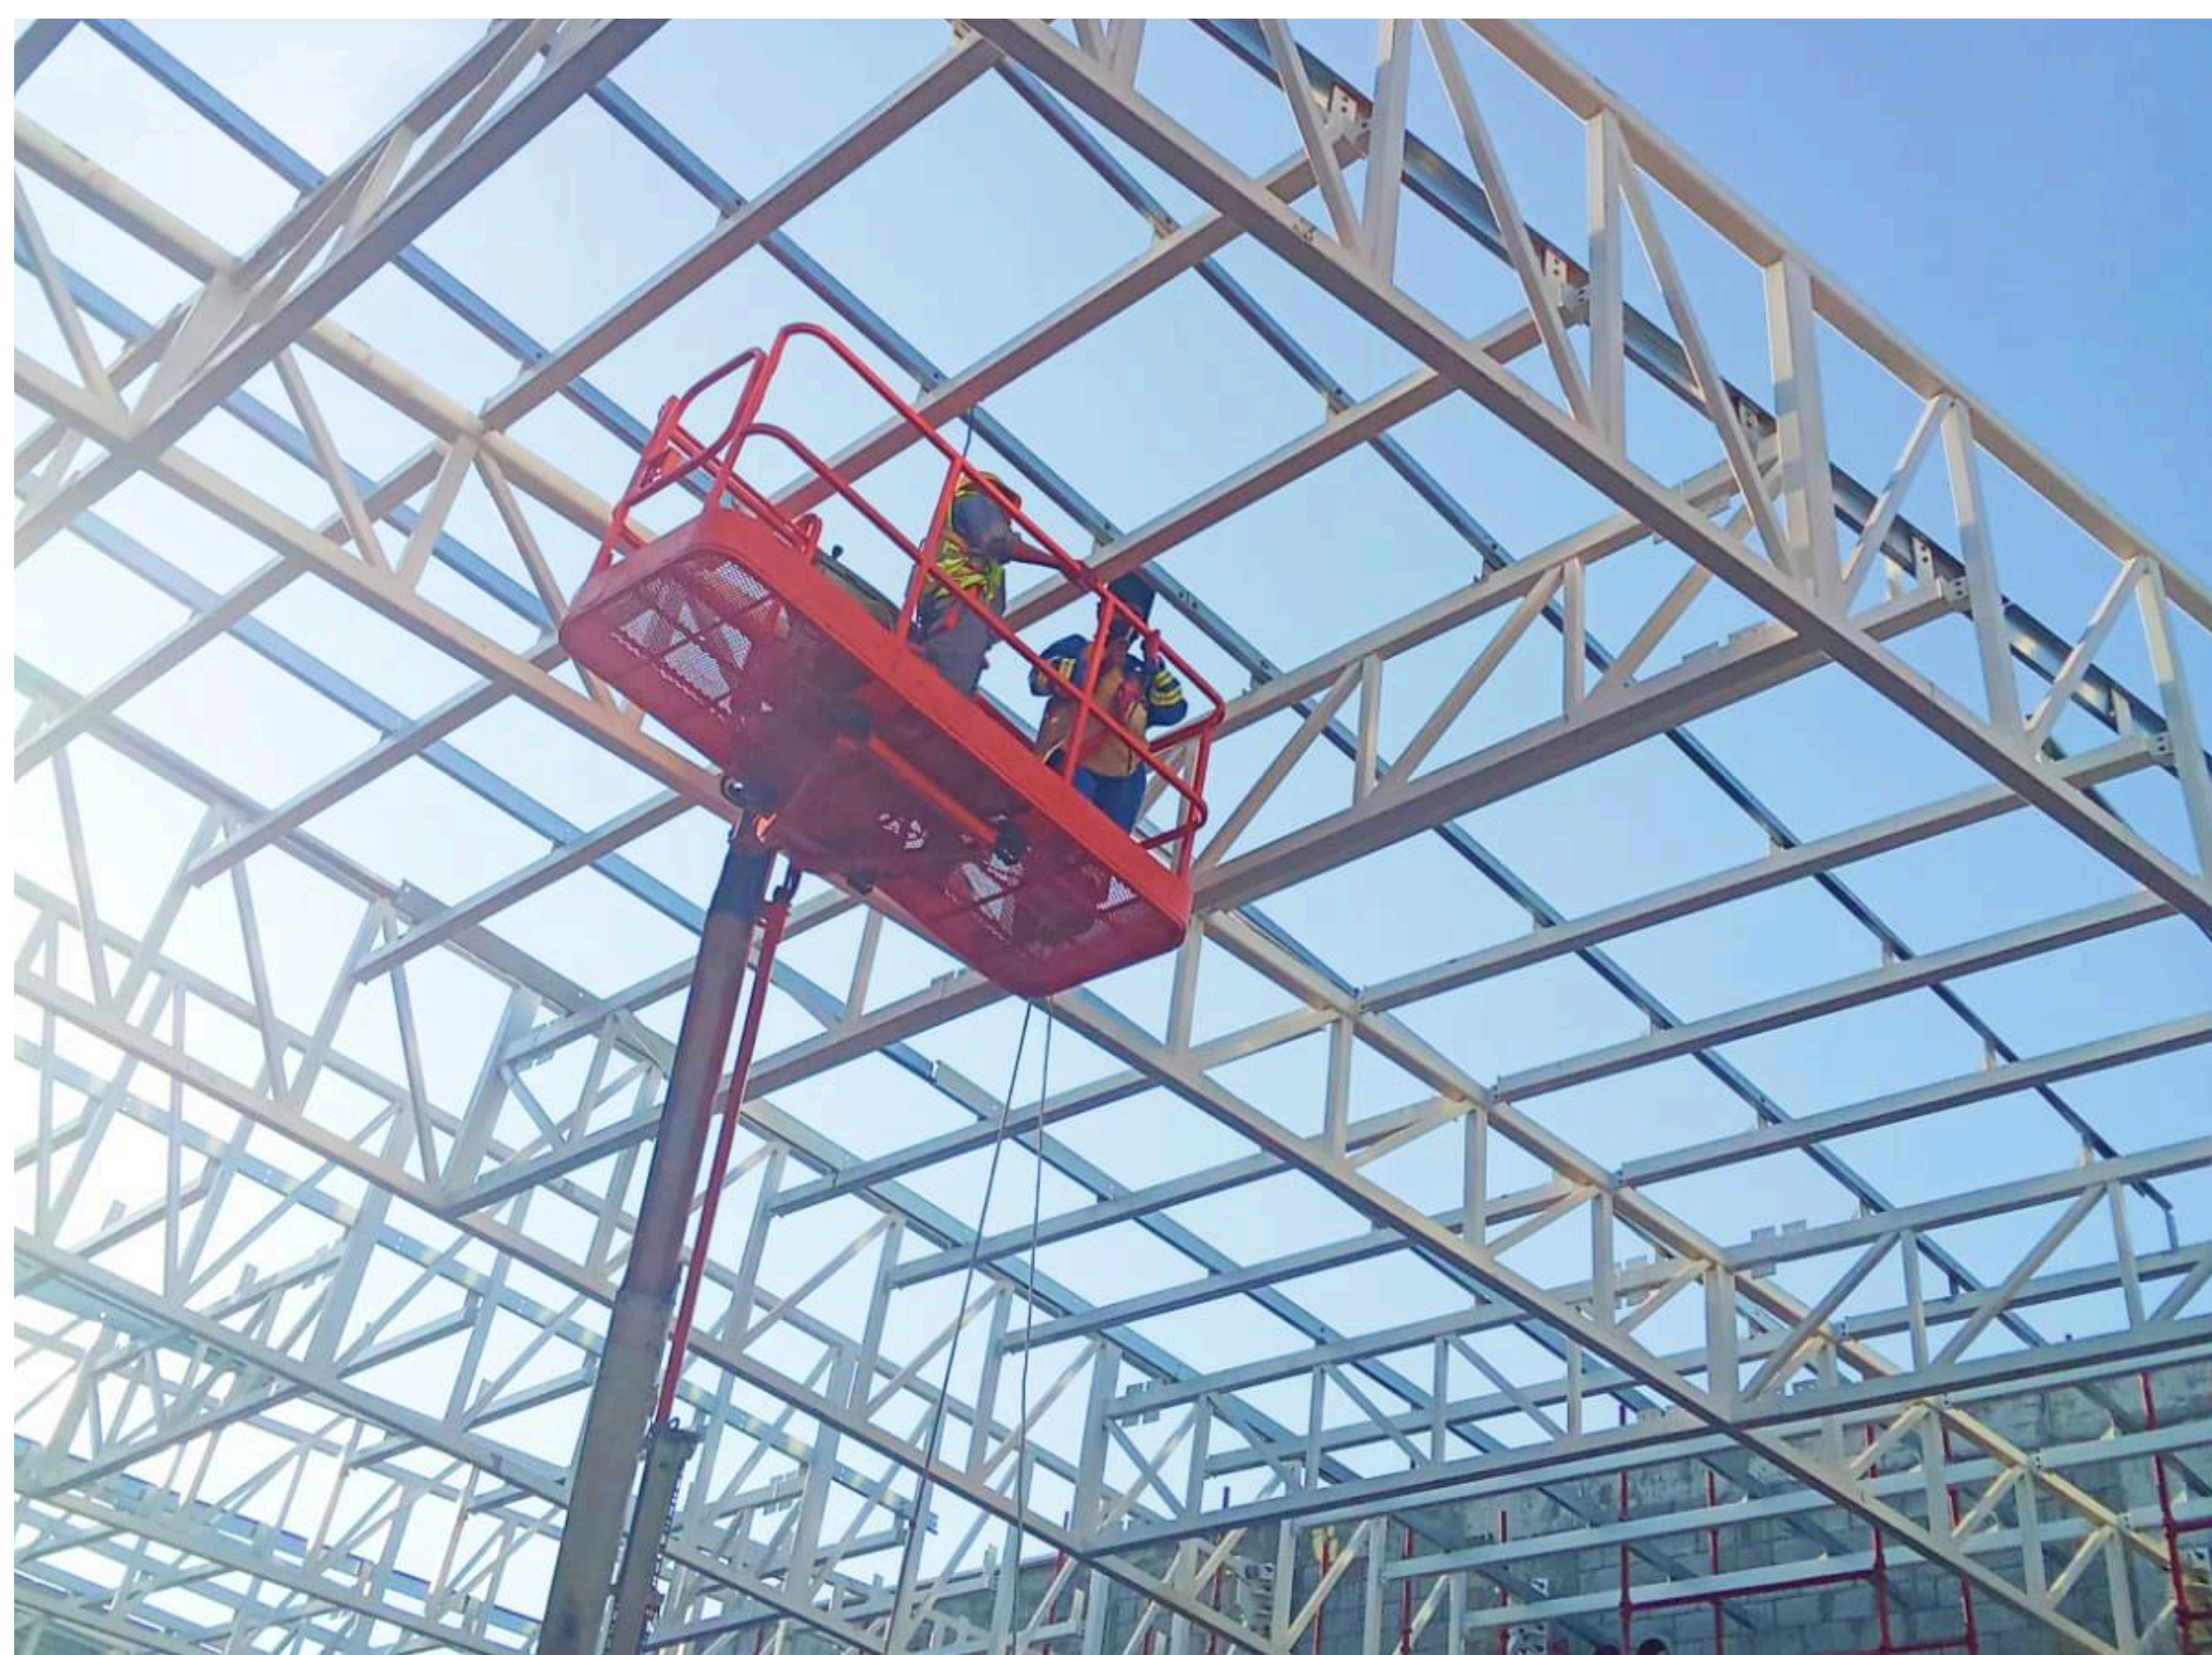

Al Wakra & Al Wukair Sewage Treatment Plant

Fabrication & Installation of Ashghal Pump Station

Skylight at Al Waab

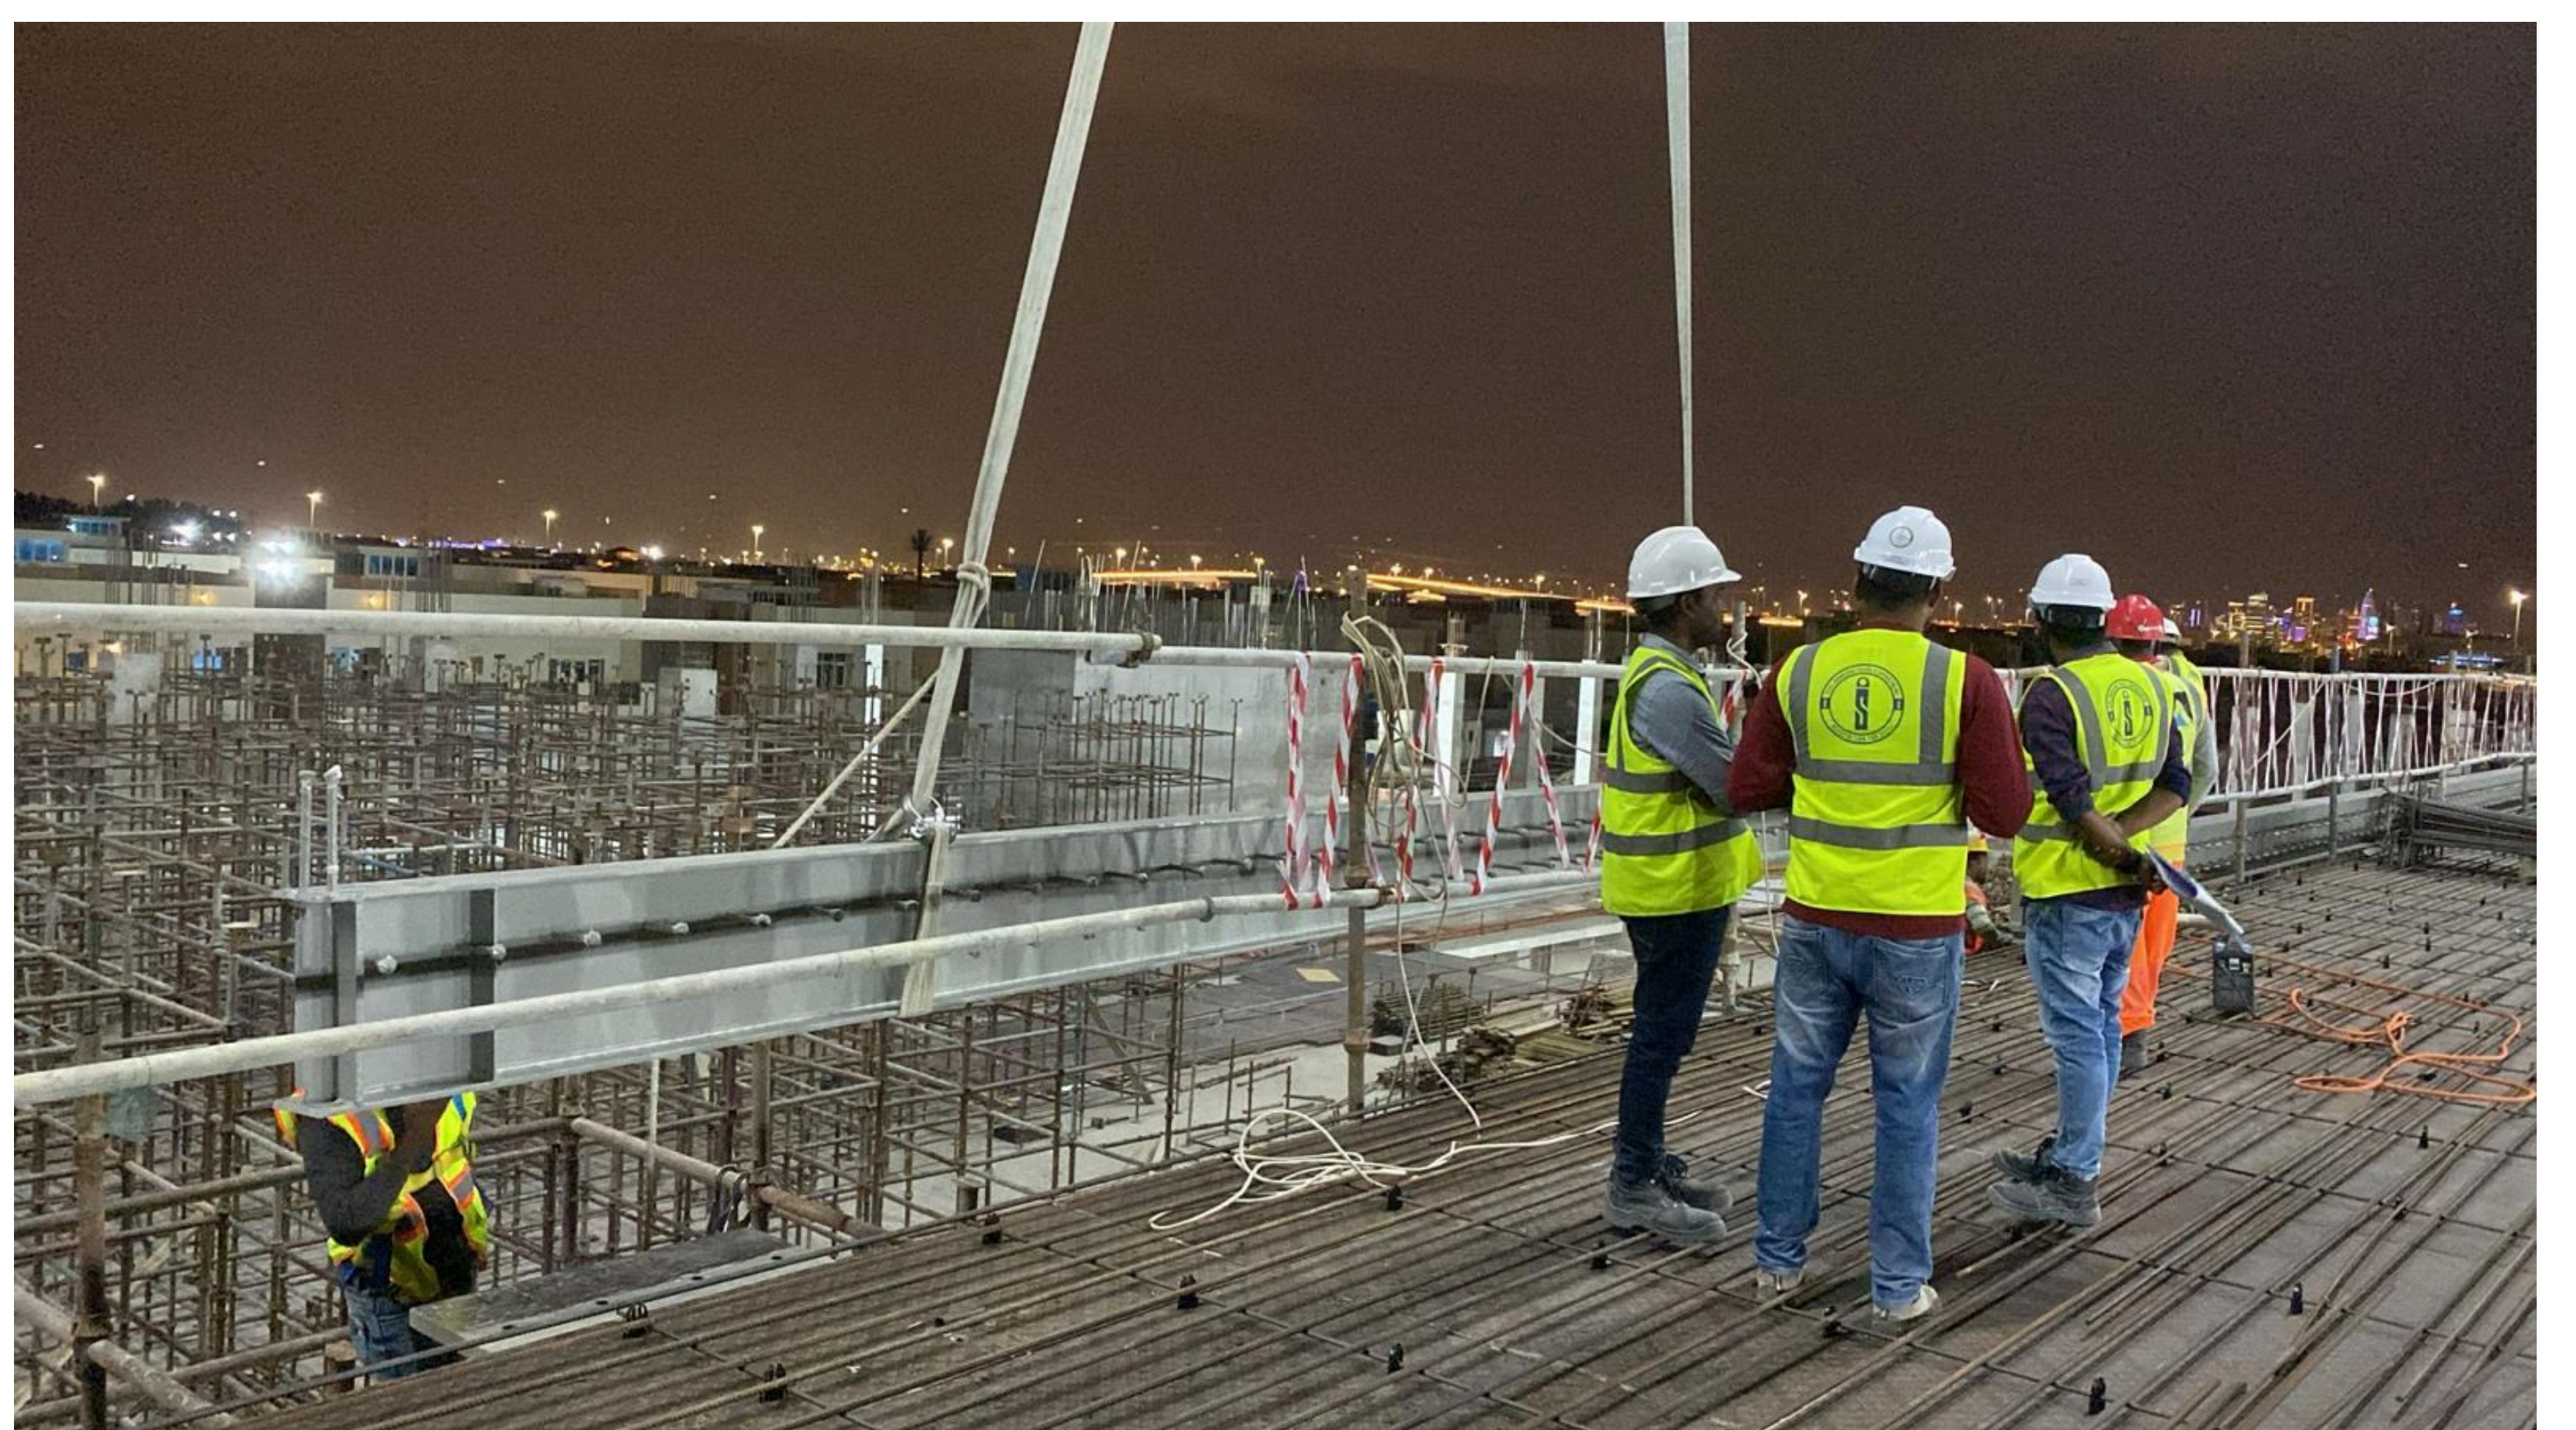

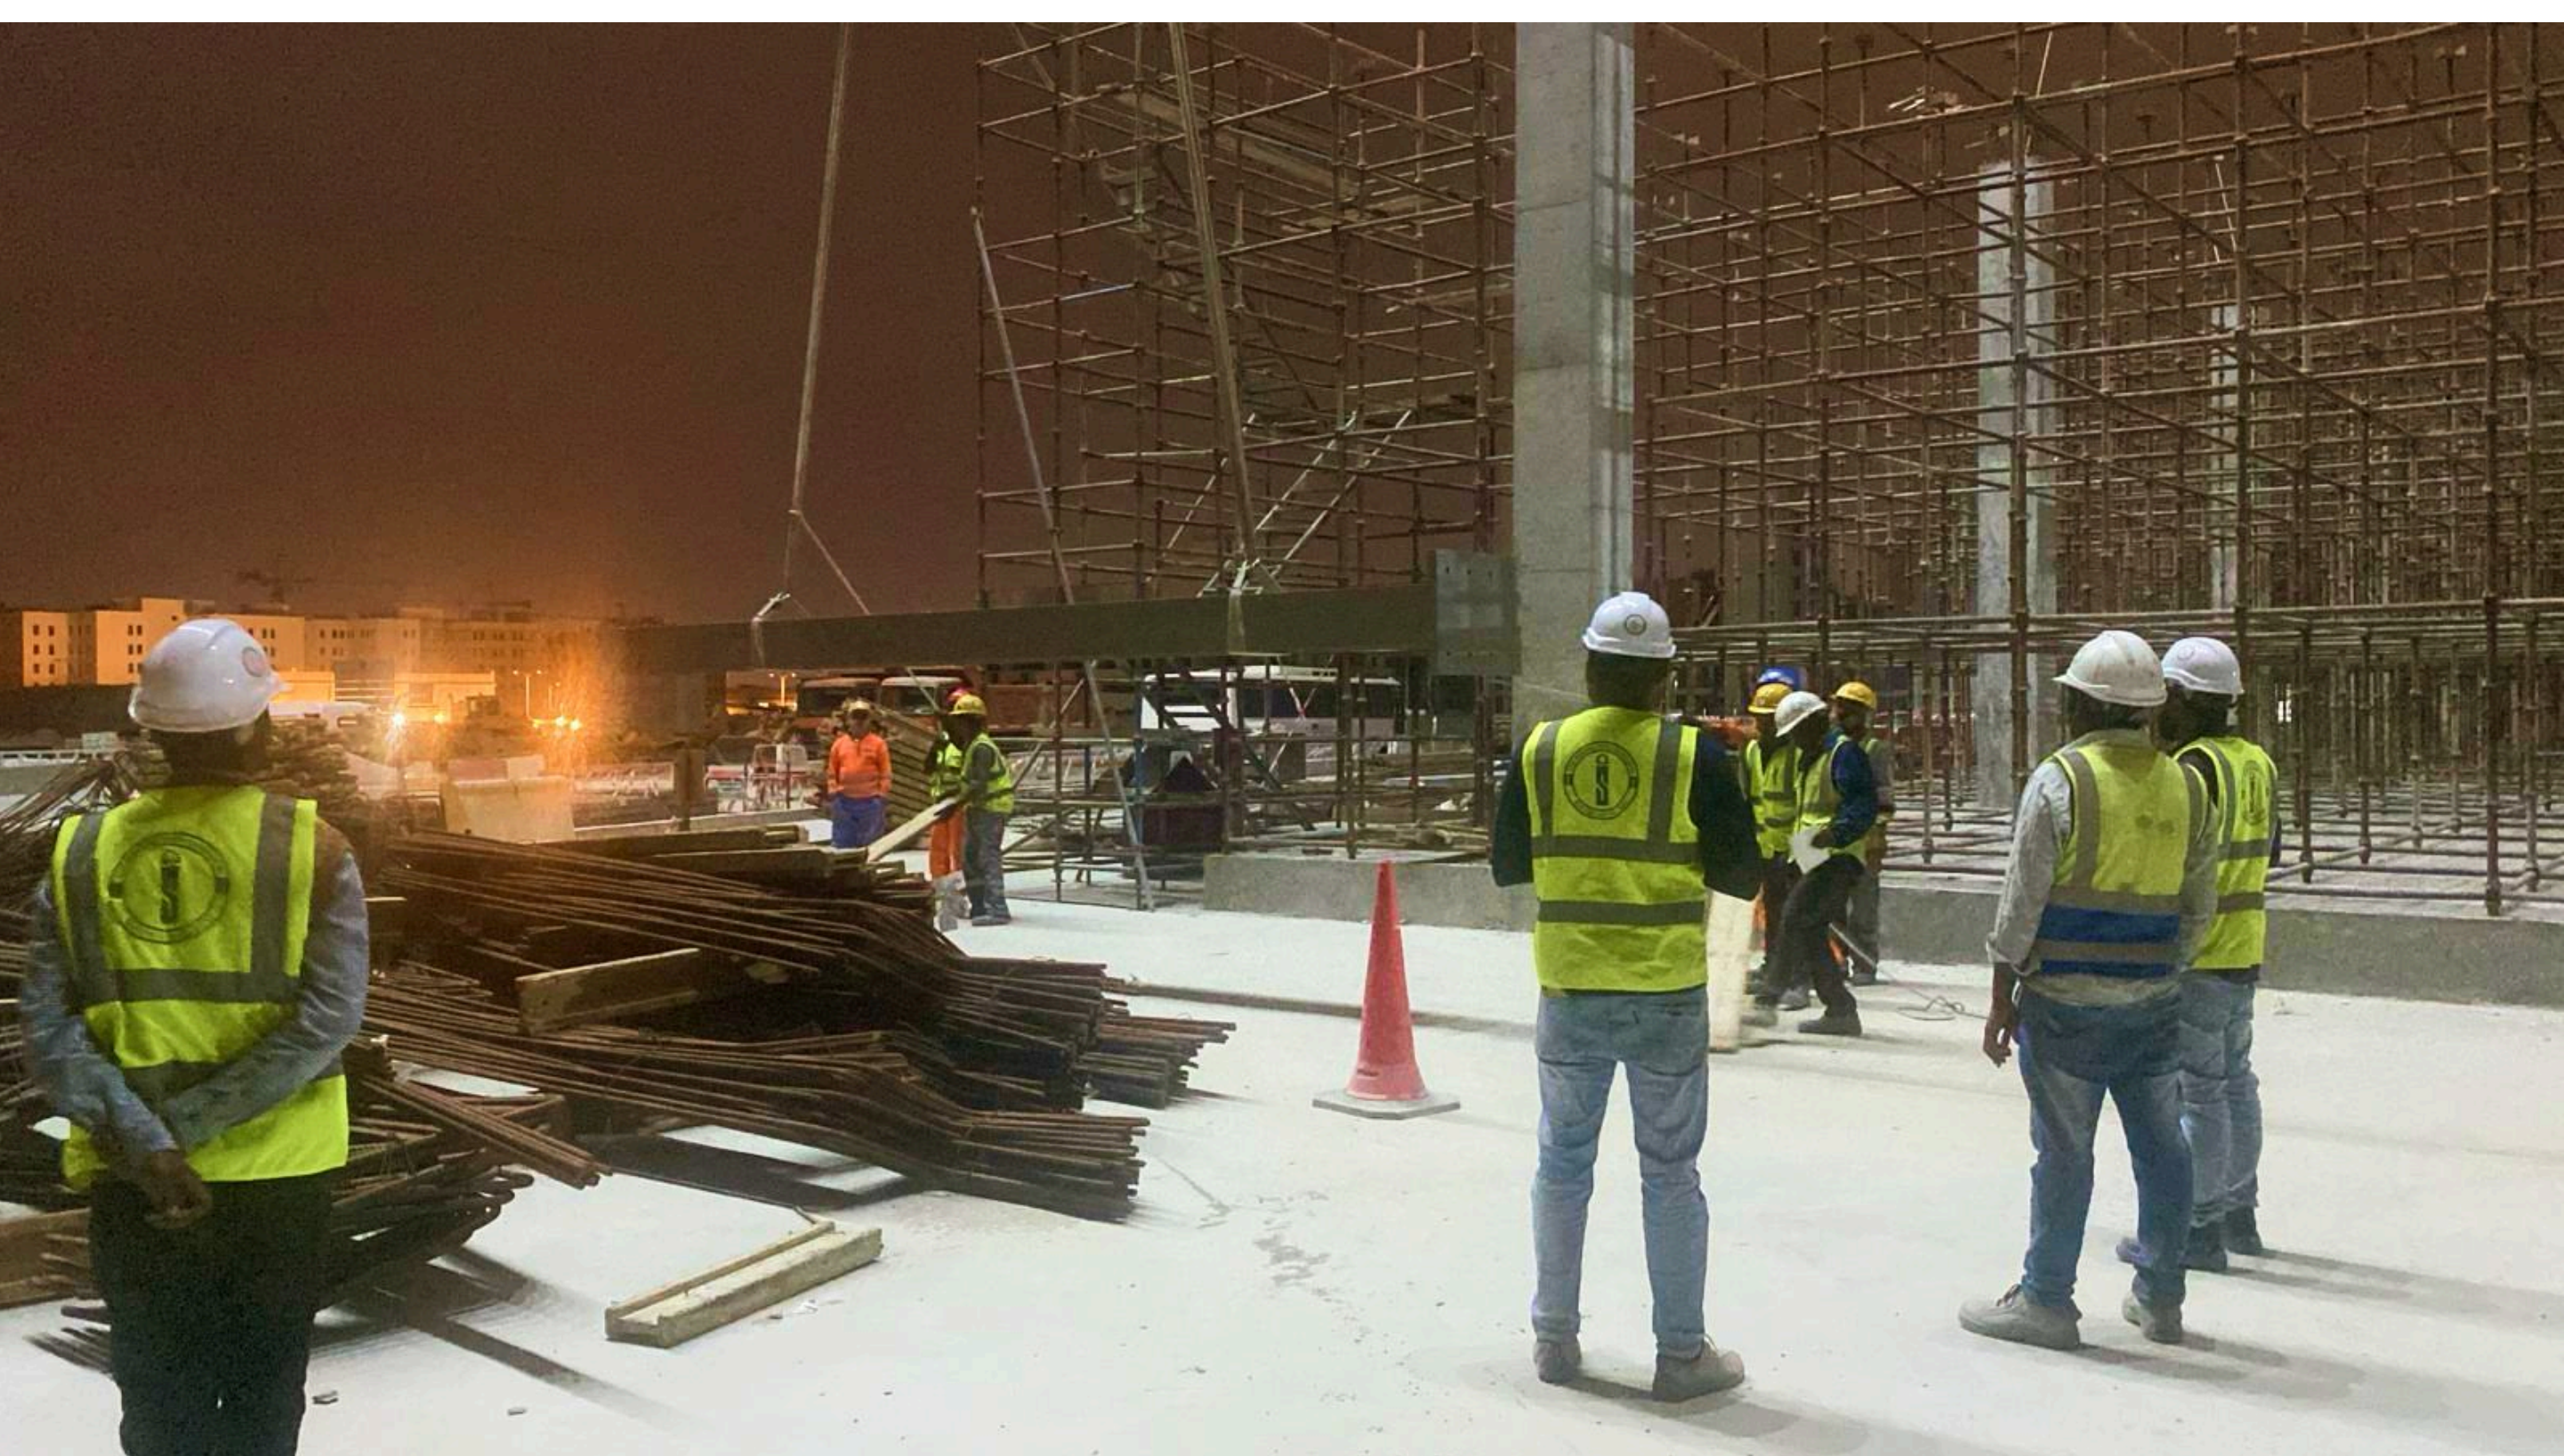

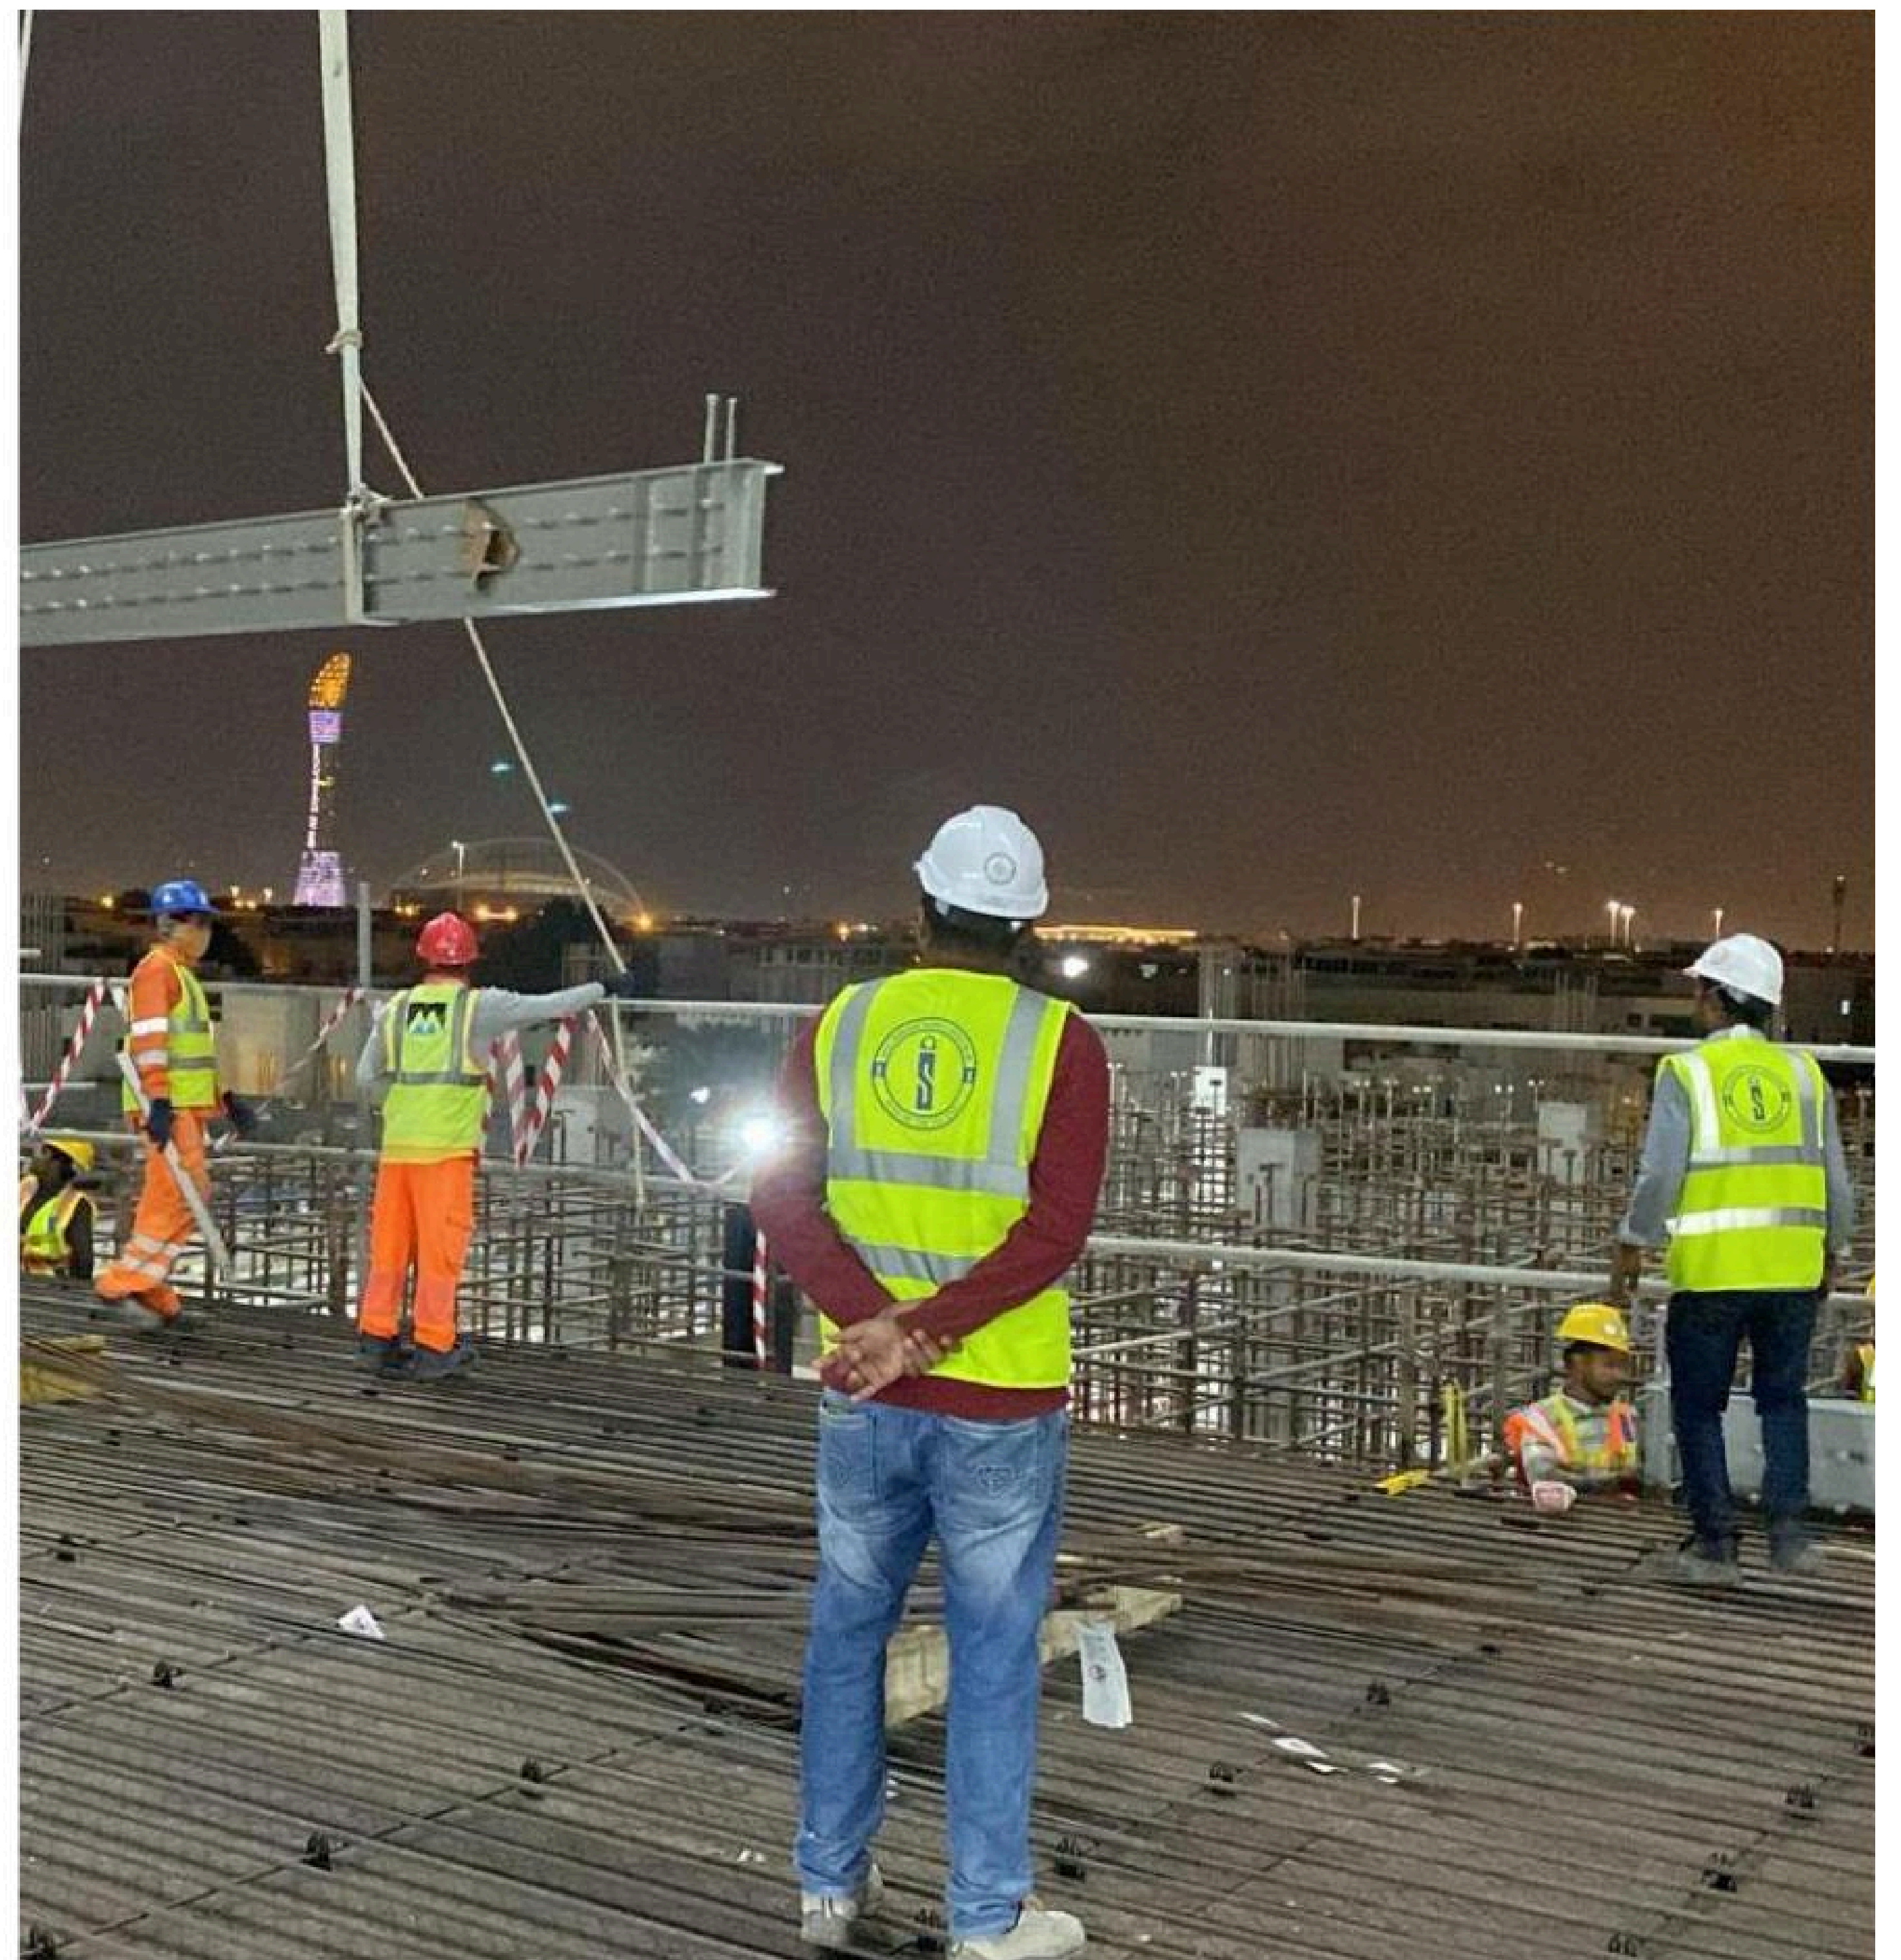

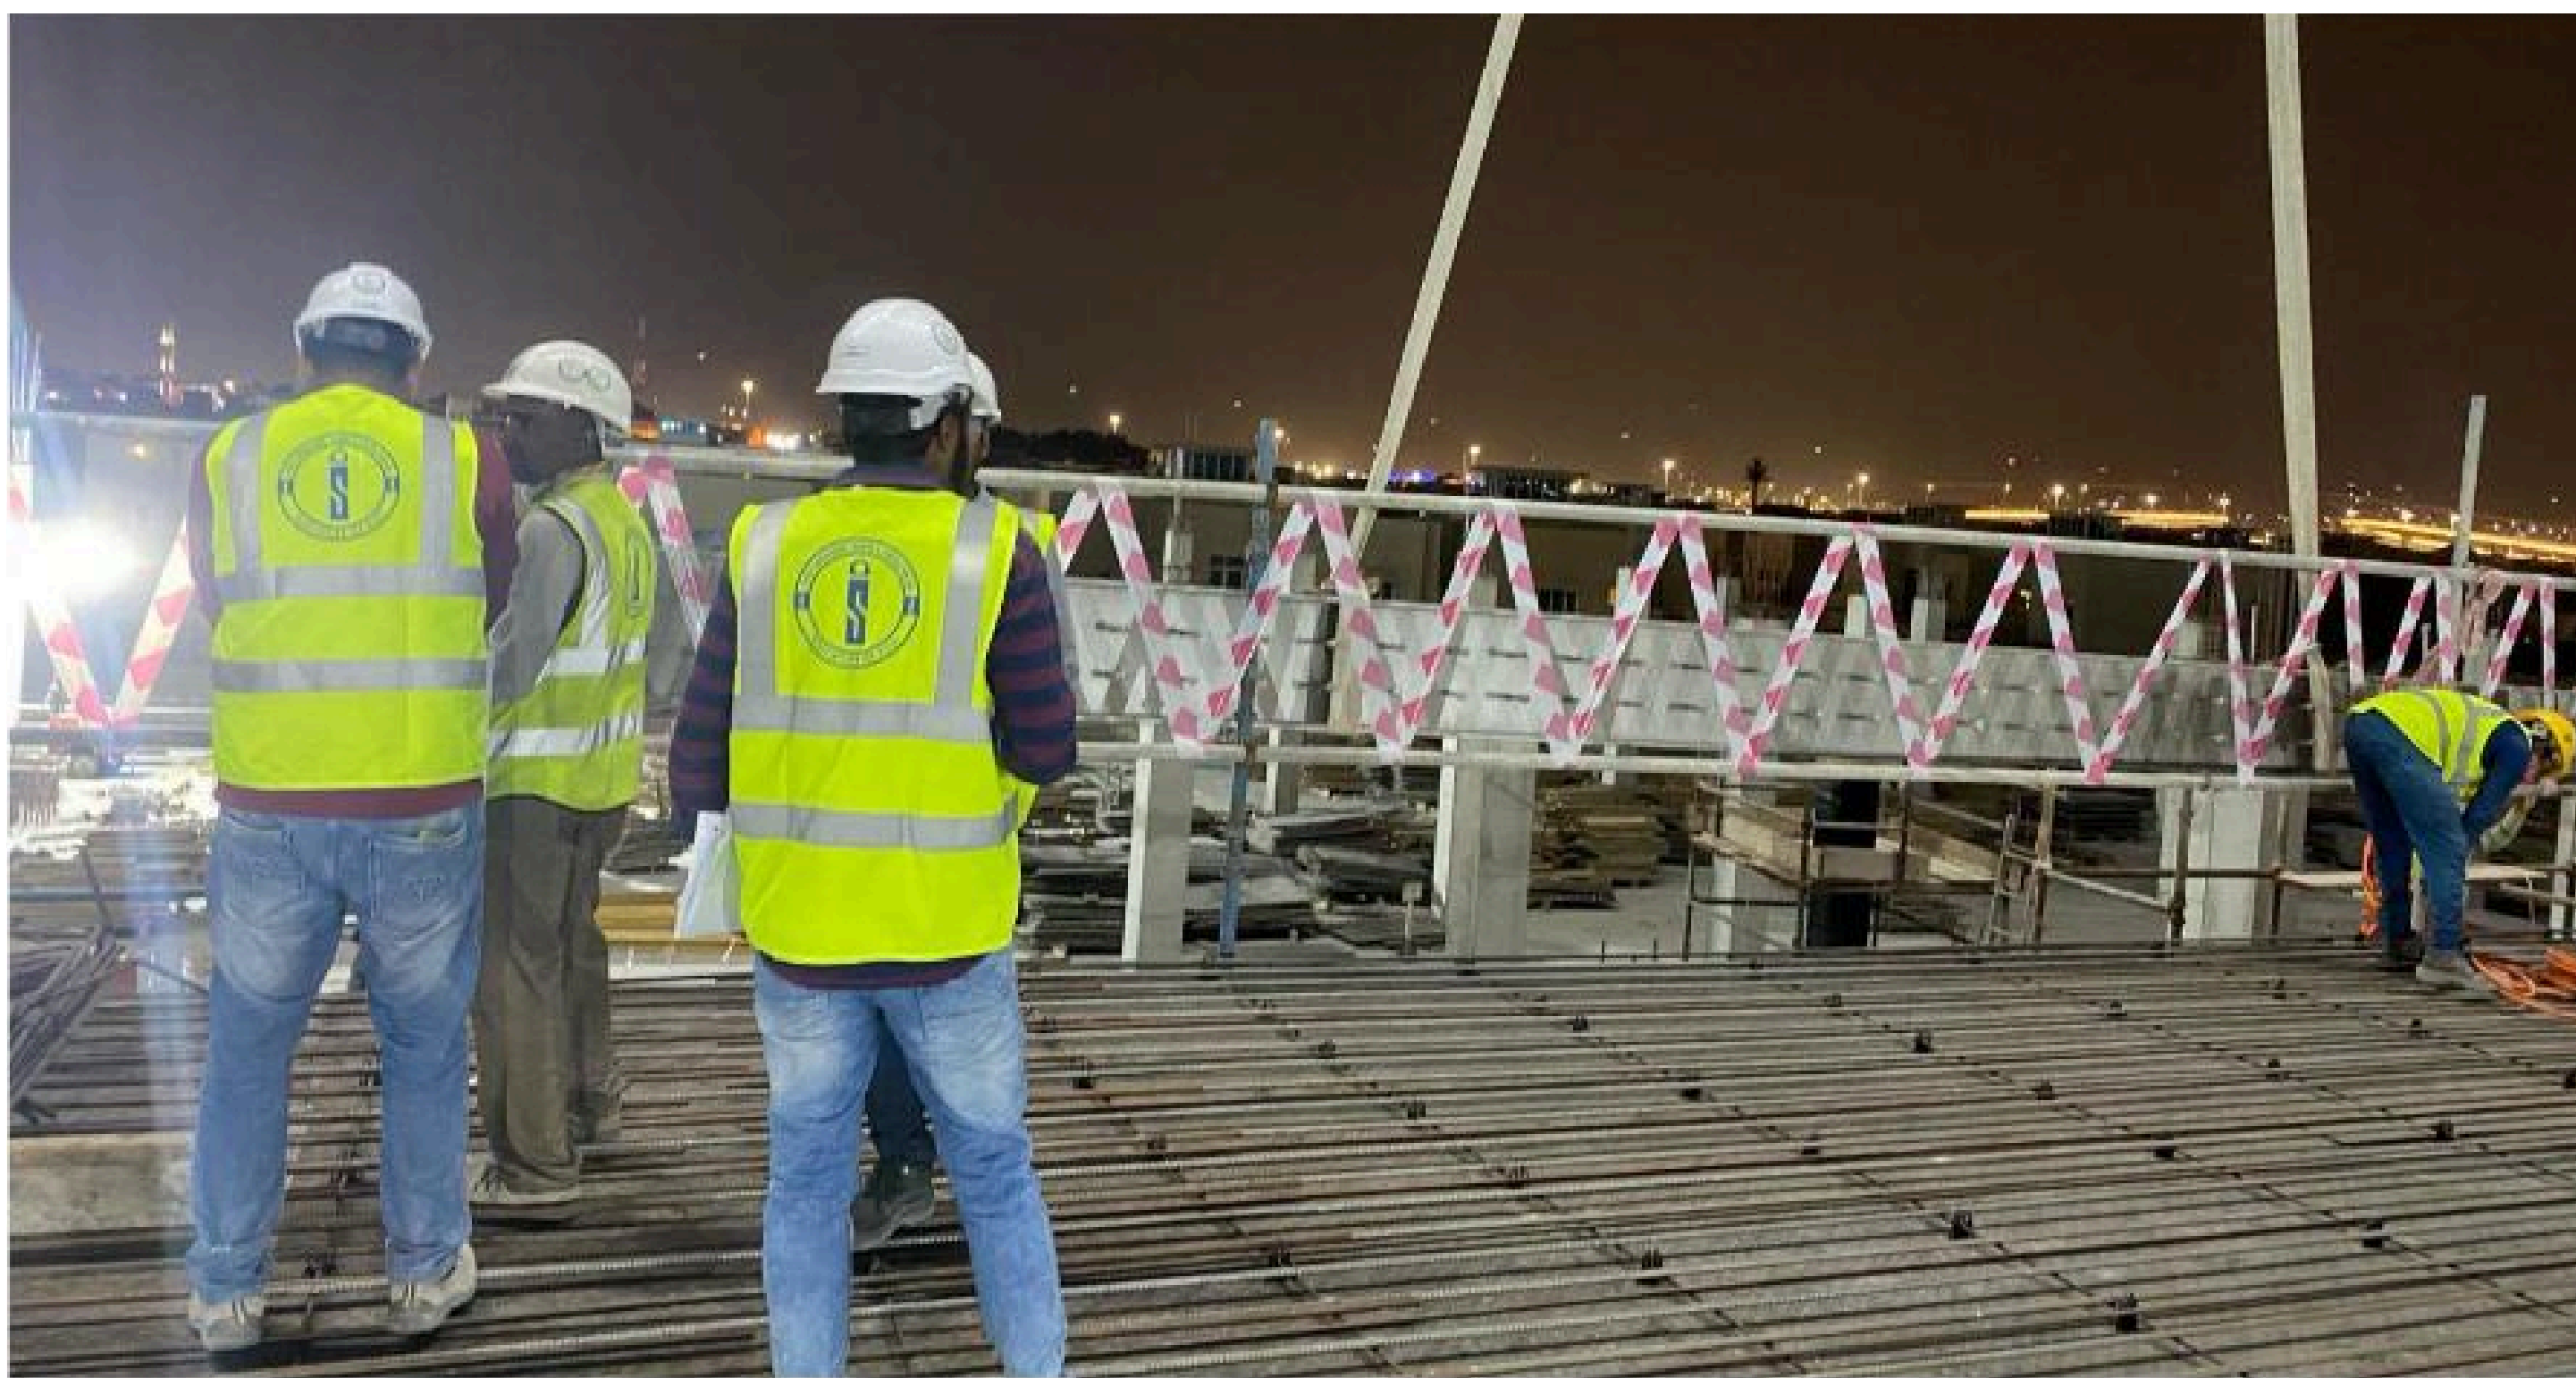

Proposed Workshop Facilities at WSSA, RLIC

Team & Workforce

- Over 180 professionals across departments
- Regular training and safety workshops
- Experienced engineers, project managers, and craftsmen.

Equipment & Technology

Equipment & Technology

- CNC Machines
- Plasma Cutting
- MIG/TIG Welding
- Shot Blasting Booths
- ERP & Project Management Software
- AutoCAD, Tekla, STAAD Pro
